Welcoming ceremony of our visit in Horana, Sri Lanka

As an alternative trading organisation and manufacturer of Fairtrade products we are focusing on many innovative products that are attractive for distributors and their customers.

#### THE MOTTO: FAIR IN EVERY SITUATION

This is why, since the establishment of our first brand FAIR SQUARED, so much more came along which we would like to commend to you. The experiences gained during the last years and our growing offer is leading to the fact that we are able to achieve more and more for the people in disadvantaged regions.

We are remaining true to our mission: Better working and living conditions for our partners in developing countries and emerging markets, who stand at the beginning of our supply chain.

Become part of it!

## FAIR SQUARED – SUSTAINABLE, FAIR & VEGAN NATURAL COSMETICS

The beginning of our Fairtrade history can be best described with the foundation of the brand FAIR SQUARED. In 2010, the idea of transferring the concept of fair trade to an assortment of high-quality cosmetics and hygiene products was born. Also, the condoms which are officially declared as vegan, were part of it from the beginning. A wide range of products that follows the claim “fair from head to toe” was quickly developed.

Olive oil from Palestine and natural rubber from India and Sri Lanka among others were the first fairly traded materials. By now, numerous Fairtrade materials from different parts of the world are used in our formulas. The range encompasses, next to body and facial care products, hand creams, skin oils, lip balms, as well as an intimate care assortment and shaving products.

# ALEPPO SOAP

## THE STORY BEHIND

### SOAP BAR MEETS FAIR SQUARED

When talking about our colleague Mohamad Khiri, the name “Aleppo man” is mentioned very often. He is the face behind our solid soaps and is part of the FAIR SQUARED team since the beginning of 2019. But how did this actually happen and what is the story behind it?

### FROM ALEPPO TO COLOGNE

Mohamad is native Syrian. He lived many years in Aleppo which is the capital of the eponymous laurel soap. Due to the outbreak of the civil war, Mohamad decided to leave Syria. In 2015, after staying in Lebanon for one and a half years, he came together with his wife and six children to Cologne.

### SOUGHT AND FOUND: ALEPPO SOAP MADE IN COLOGNE

Mohamad had his own company in Aleppo where he produced and distributed soaps and detergents. When we as FAIR SQUARED were looking for someone who would build up our soap production at the end of 2018, Mohamad decided to apply for this job. His application immediately convinced us.

### MOHAMAD: OUR MAN FOR NATURAL SOAPS

Ever since, Mohamad is the person behind the FAIR SQUARED soap production. Next to the famous Aleppo Soap containing Fairtrade olive oil, he is also producing other natural soaps for our assortment. And the best about all this is the fact that he can do exactly what he did in his home country Syria.

### KHIRO'S ALEPPO SOAP

This is a real classic in the traditional art of soap making. The natural Aleppo Soap is universally applicable. It is made from Fairtrade olive oil and organic certified laurel oil from sustainable cultivation. Optimal care, free of perfume and no preservatives. Suitable for skin and hair care.

## SOAP BARS “KÖLSCH”

### KÖLSCHSEIFE OHNE JEDÖNS FÖR DE PLÄÄT

Originally invented by FAIR SQUARED: organic certified Kölschseife for bald heads. Incl. bald head's polish and polish cloth.

80 G 4910390

Here it is: The first Kölschseife (literally meaning: Cologne's beer soap bar) with sustainable and Fairtrade ingredients. Behind the FAIR SQUARED Kölschseife is the concept of processing regional and fairly traded resources to nurturing hair cleansing soaps. Based on the idea of giving particular importance to the hop, which is known for its nurturing qualities.

Together with organic certified Kölsch (beer) from the Cologne-based brewery Heller, we have developed a range of organic certified Kölsch soaps that offers sustainable care for each type of hair.

## BODY CLEANSING SOAP BARS

### BODY SOAP APRICOT SENSITIVE SKIN

Sensitive skin needs gentle and nurturing cleansing. For this type of skin, we developed our Body Soap Apricot. Thanks to mild and saponified oils, like fairly traded apricot kernel oil, your skin receives the perfect care.

Superfating level: 7.0%

2 x 80 G + COTTON SOAP BAG, 4910268

### BODY SOAP COCONUT SOFT PEELING

It is known that regular peeling helps regenerating the skin. This body soap is removing dead skin cells which improves the skin texture. This foaming peeling contains coconut oil and cleanses the skin gently. Additionally, the peeling can have a positive effect on the blood circulation. We use Fairtrade coffee grounds for a sustainable peeling effect.

Superfating level: 6.5%

2 x 80 G + COTTON SOAP BAG, 4910270

### BODY SOAP SHEA DRY SKIN

Due to the special formulation addressing dry skin this soap is a real all-rounder. This relatively superfating soap contains, among others, fairly traded shea butter. This is why it is ideal for dry skin.

Superfating level: 7.0%

2 x 80 G + COTTON SOAP BAG, 4910271

### ALL-IN-ONE SOAP OLIVE ALL SKIN TYPES

With the all-in-one soap we have developed a body and hand soap that contains Fairtrade olive oil and is suitable for all skin types. Other ingredients are for example fairly traded shea butter and coconut oil.

## BEARD AND SHAVING SOAP BARS

### BEARD SOAP COFFEE

This soap was developed for daily cleansing of the beard. It contains fairly traded oils and coffee for gentle cleansing and long-lasting gloss.

Superfating level: 3.5%

2 x 80 G + COTTON SOAP BAG, 4910334

### SHAVING SOAP COFFEE

The shaving soap combines various advantages of fairly traded ingredients. The shea butter leaves a nurturing film on the skin which is ideal for dry skin. Despite, it contains frothing, saponified babassu oil and coconut oil.

Superfating level: 4.5%

2 x 80 G + COTTON SOAP BAG, 4910257

### PEELING SOAP BAG

The FAIR SQUARED soap bag can be used for a gentle peeling and for saving soap residues. The natural fibre is made of the leaves of sisal and is biodegradable. The soap bag is 100% plastic-free and washable at 30 °C.

4910315

### SOAP SCRAPS

For leftover pieces of our soap production we have found an appropriate usage – the FAIR SQUARED Soap Scraps. Depending on availability, different types of soaps are on offer and are declared on the packaging.

# FAIR SQUARED GOES ZERO WASTE: A PROCESS

Since 2018 we are thinking of how to make our assortment even more sustainable. This is how the Zero Waste circle, which integrates distributors and customers into the process of waste prevention, was developed.

## Fair natural cosmetics in a returnable system

1. Take the glasses into the retail shop
2. Sale to sustainable oriented customers
3. Usage of cosmetics
4. Take back the empty glasses
5. Send them back to FAIR SQUARED for cleaning
6. Refilling of the glasses... and the circle resumes

## Important step: Choice of glass

- Glass as long-lasting material
- Reusable glass jar saves half of the carbon emissions compared to single-use glass jar. Carbon emissions:  $\text{kgCO}_2$  per glass (100 ml) = 0,0505 kg (calculated by ClimatePartner, December 2019)
- Easy to clean and refill
- Returnable system that includes distributors and customers into the Zero Waste process

## New: plastic-free lid seals made of natural rubber

- Previous EPE inlays are replaced by rubber
- Sustainable, fairly traded material ("Fair Rubber")
- Free of plastic and hygienic
- Can be reused

---

# FAIR SQUARED WITH A NEW DESIGN

Our product range grew over the last years constantly. Moreover, different assortments were formed which are offered independently. Until now, this was not really visible in the design of the packaging. That is why we implemented some changes which help customers to distinguish the different products more clearly at the point of sale.

## Relaunch of the glass containers

- Brown glass instead of white glass
- Higher protection from light for the cosmetics

## Optimisation of the design

- Learned colour world for each Fairtrade ingredient is retained
- Each assortment gets its own pattern for easy distinction

## Advantage for customers

- Attractive, clear structured design ensures high visibility
- Clear arrangements in the shelves
- The different assortments can be captured quickly
- Safe purchase decision because customers can easily find suitable products and their variants

### OUR PARTNER "REACHER" FROM INDIA

The organic cotton that we are using for FAIR SQUARED and FAIR ZONE comes from a Fairtrade production site in Tiruppur, India. The modern factory employs 30 staff members who are producing for example our cosmetic pads and handkerchiefs from organic certified cotton. Tiruppur is said to be the India's capital of cotton knitting. This is because huge amounts of organic cotton are spun here, from which 90% are exported. The wages of the employer Reacher are 5-7% above average. In addition, employees get social security. Especially the operators are strongly using their eyes, regular eye examinations are financed. Reacher is GOTS certified.

**COTTON HANDKERCHIEFS**

Highly useful, eco-friendly and not old-fashioned at all: our handkerchiefs made of Fairtrade organic cotton. Can be washed up to 90°C, available in package of three.

### HAND CREAM ALMOND

The sensitive version of our classic alltime favourite is also based on nourishing Fairtrade olive oil from Palestine. Though, its specific characteristic is composed of fairly traded almond oil from Uzbekistan which adds on the cream's smoothness. This makes it an ideal partner for sensitive skin.

## DIY-OILS

### DO IT YOURSELF

The trending “Do It Yourself” movement has already reached the cosmetic industry. Consumers who are interested in a healthy life would like to decide for themselves, which creams and ingredients they are going to apply on their skin. Besides the individual decision for well-tolerated substances, factors like choosing pure, unprocessed raw materials play an important role in the buying process.

Take your chance as a supplier and choose our pure Fairtrade oils and butters in organic quality!

**SHEA BUTTER (ORGANIC)**

Pure shea butter shows excellent characteristics for the production of cosmetics. Its high proportion of different ingredients gives the organic butter made of the shea tree’s kernels a highly nourishing and skin-soothing quality. Moreover, it is perfectly right for treating dry and neurodermitic skin.

**100 ML ZERO WASTE JAR, 4910305**

**COCONUT OIL (ORGANIC)**

Coconut oil is well-known for its multitude of qualities in the DIY movement. It is popular for many care products because of its skin-caring and moisturising characteristics. Whether as a pure make-up remover, a basis for deodorants or conditioners – discover our Fairtrade and ecologically cultivated coconut oil from India.

**100 ML ZERO WASTE JAR, 4910303**

**OLIVE OIL (ORGANIC)**

Our Fairtrade olive oil is a real all-rounder. That’s why we use it as the basis for most of our cosmetics. Of course, we also offer it for the individual use at home, in high-grade organic quality. Since it is very kind to the skin and highly nourishing, it is also recommended for the dry and flaky skin type.

**500 ML ZERO WASTE BOTTLE, 4910304**

**ARGAN OIL (ORGANIC)**

Argan oil is often called the “Moroccan liquid gold” for its high economical significance. Also in cosmetical contexts the oil is attributed with numerous positive qualities. For universal hair and skin care – in fair organic quality.

**100 ML ZERO WASTE BOTTLE, 4910301**

**ALMOND OIL (ORGANIC)**

We offer fairly traded almond oil which we derive from sustainable and ecological cultivations in Uzbekistan. The oil which is made of the tasty kernels is said to have a nourishing and soothing effect on the skin. Since it is relatively slowly absorbed, it is perfect for using as a massage oil.

**100 ML ZERO WASTE BOTTLE, 4910302**

**APRICOT KERNEL OIL (ORGANIC)**

This pure apricot kernel oil is from fair trade projects in Pakistan and well-known for its universal quality as the base of many cosmetics. Moreover, it is recommended for a sensitive skin because of its mild and skin calming impact. It may also serve as a make-up remover if used purely.

Gathering of plastic bottles on the east coast of Sri Lanka

# ECO RAZOR

## UPCYCLING

Plastics are found everywhere, for sure. Although it can often and easily be avoided as we have shown by the switch to zero-waste packaging. But one thing's for sure: It won't happen overnight that all plastic packagings vanish. Furthermore, there is the need to find ways to deal with them properly. One of them is our new project that we have realised with our Sri-Lankan partners and that really fills us with pride. Instead of letting plastic bottles drift down the ocean, they are being gathered on Sri Lanka's east coast and given a new purpose. This is the beginning of the Eco Razor by FAIR SQUARED, the first upcycling safety razor.

### ECO RAZOR & BLADES

Definitely a novelty: a hand razor for every body part made of plastics which would otherwise have landed in the ocean. Realised together with Rice & Carry, the FAIR SQUARED Eco Razor is a real zero-waste product. The handle has been made from HDPE bottle caps which have been gathered at central spots on Sri Lanka. A unique product – for you and not the ocean!

### PERIOD CUP

The FAIR SQUARED Period Cup is a soft menstrual cup, made of fairly traded natural rubber. It does not absorb the menstrual fluid but collects it. The Period Cup can be used throughout the menstrual cycle, no matter whether the menstrual flow is light or heavy. It gives you longer protection because the cup can retain more than three times the amount of menstrual fluid than a regular tampon. The Period Cup is reusable, can easily be cleaned with water and once you know how to correctly insert it, you won't feel it. At the end of the menstrual cycle, it is recommended to boil the cup for one minute in clear water and store it in the provided cotton bag until the next use. In addition, our Period Cup Cleaner can be used to cleanse the cup.

Employees, Rice & Carry, Sri Lanka

---

## RICE & CARRY – OUR SUSTAINABLE COOPERATION WITH SRI LANKA

A wonderful cooperation for the good. This is what describes best the story behind our collab with Rice & Carry. It all begins in spring 2019 when two people of FAIR SQUARED and FAIR ZONE go on a business trip to Sri Lanka. Before that, Oliver and Eldad have already become aware of Rice & Carry and wanted to meet the couple at the east coast.

### TOGETHER FOR A FAIR CHANGE

It did not take long to come up with the wish of cooperating with Henry and Susi for a project. Since the founders – who have already lived some years on the east coast of Sri Lanka – also pursue the vision of combining fair working conditions with ecological responsibility, this seems to be a perfect match. Since 2019, Rice & Carry can actually call themselves officially fair. The initiative is now member of the World Fair Trade Organization (WFTO).

### UPCYCLING INSTEAD OF THROWING AWAY: FAIR ZONE MEETS RICE & CARRY

Everything under the name of Rice & Carry has its origin in waste like discarded rice bags or collected bottle caps. The idea behind was to assign a new meaning to things and actively reduce waste. By this, the FAIR ZONE collection made of recycled rice bags was launched and the idea of the FAIR SQUARED Eco Razor was born.

## EVERYDAY ACCESSORY

**BOTTLE COOLER**

The Bottle Cooler made of recycled rice bags keeps its promise: the inside stays cool. Perfect for the next picnic in the park. Height 33 cm, diameter 8 cm.

**4800011**

**COOLER BAG**

The ultra light cooling bag is the ideal companion for mild summer evenings and extensive picnics outdoors. With two robust handles on both sides. Width 28 cm, height 18 cm, depth 19 cm.

**4800010**

**PICNIC BLANKET**

A quite unusual picnic blanket – with insulating and moisture-repellent bottom made of rice bags. Welcome, outdoor season! The bottom can be taken off for cleaning. The cloth can be separately machine-washed (30°C). Width 115 cm, height 170 cm.

**4800167**

**KITCHEN APRON**

Rice & Carry applies a new meaning to discarded rice bags, as seen in this stylish apron. The attached front pocket provides space for little things. With adjustable straps for the neck. Width 69 cm, height 78 cm.

**4800176**

**LUNCH BAG S**

Space-saving and fair: the foldable and reusable sandwich bag. With this, lunch time is twice as joyful. Width 22 cm, height 17 cm, depth 9 cm.

**4800171**

**LUNCH BAG L**

Bringing your lunch to work? No problem with this Lunch Bag with Velcro fastenings. Cooling the inside with an additional insulation while travelling. Height 30 cm, width 30 cm, depth 13 cm.

**4800172**

**COASTER**

Give rice bags a second chance! For example as a coaster. The colourful coasters are reinforced by a bottom made of raffia. 12 cm x 12 cm.

**4800189**

**PLACE MAT**

Like for our coasters, discarded rice bags have been combined with raffia at the bottom. The result are these stylish and unique place mats. Width 45 cm, height 33 cm.

**4800170**

**BREAD BASKET**

Really space-saving and stylish: the bread basket made of recycled rice bags. With a removable cloth at the inside which can be machine-washed at 30°C. Height 12 cm, diameter 18 cm.

**4800200**

**STORAGE HANGER**

A real space-saver for the bathroom: the storage hanger by Rice & Carry. Separate cells for storing comb, cosmetics, and hair ties. Height 60 cm, width 25 cm.

**4800199**

**LAUNDRY BAG LARGE**

The laundry bag can be tied up. Made of recycled rice bags, it has a moisture-repellent outside and cotton cloth on the inside. Two adjustable handles for maximum comfort. LARGE: Height 59 cm, width 63 cm, depth 40 cm. MEDIUM: Height 40 cm, width 72 cm, depth 23 cm.

**LAUNDRY BAG LARGE, 4800169  
LAUNDRY BAG MEDIUM, 4800191**

**LAUNDRY BAG MEDIUM**

## EVERYDAY ACCESSORY

**DRAWSTRING BAG**

This drawstring bag is small and light as a feather. When needed, it offers a lot of storage space. For example for the next trip to the beach. Width 25 cm, height 43 cm.

**4800166**

**BARREL BAG**

A modern sports and leisure bag with two robust handles made of white or black cotton. The zipper contains a nylon string which has been collected on Sri Lanka's coast. Width 45 cm, diameter 25 cm.

**4800198**

**SHOPPER S**

A strong and eye-catching bag: the small shopper by Rice & Carry, made of recycled rice bags. Width 30 cm, height 26 cm, depth 17 cm.

**4800184**

**SHOPPER L**

For all longer tours we recommend the Rice & Carry Shopper L which also cuts a fine figure by the lake. Width 48 cm, height 31 cm, depth 17 cm.

**4800013**

**PENCIL CASE**

Whether at school, university or on a business trip – with this pencil case everything is well stored what needs to be kept handy. Width 24 cm, height 15 cm, depth 7 cm.

**4800175**

**FESTIVAL ESSENTIALS TAG**

Reduced to its minimum, but without being boring. The Festival Essential Tag is a small bag for everything essential as money, chewing gums, and ear plugs. With a key ring for hands-free actions on every concert. Width 13 cm, height 13 cm.

**4800187**

**YOGA MAT BAG**

Absolutely sustainable: The own yoga mat can be easily carried within this Rice & Carry bag. Emission-free, fair and eco-friendly. Length 70 cm, diameter 16 cm, length of the handle 96 cm.

**4800165**

**COSMETIC BAG**

Enough space for the tooth brush and the favourite cream. The cosmetic bag by Rice & Carry is perfectly storing all needed things for going on a journey. Width 23 cm, height 14 cm, depth 6 cm.

**4800008**

**BELT**

A real upcycling classic: the belt made of rice bags and HDPP bottle caps. Not only absolutely stylish – it also shows what a perfect match environmental protection and fair trade actually are. Width 3 cm, length 129 cm.

**4800173**

**BUM BAG**

Here you can store anything that suits in a common bum bag. The only difference: this bag comes from a fair trade project in Sri Lanka which applies a second chance to discarded rice bags. Width 25 cm, height 16 cm, depth 4 cm.

**4800168**

**KEY RING**

Robust key tag made of recycled materials: the Rice & Carry Key Ring. The buckle is made of collected bottle caps (HDPP), the belt has been manufactured from rice bags. Width 3 cm, length 18 cm.

**4800043**

**DOG COLLAR**

Also dogs can now wear rice bags. With this robust dog collar every pet can act as a fair trade ambassador. Width 2.5 cm, length 46 cm.

# FAIRMOVE

## NATURAL RUBBER

Natural rubber (latex) is a renewable material with excellent qualities. It is also used for condoms, balloons, dummies, and gloves. Our FAIRMOVE sandals are produced with the use of fairly traded natural rubber from the Horana plantation in Sri Lanka. FAIRMOVE is member of the Fair Rubber Association. This means that we pay a fair trade premium which is being used for the improvement of the living and working conditions of the employees of the plantation and their families. The workers in Horana decide for themselves about the usage of the fair trade premium.

Our FAIRMOVEs are innovative and stylish sandals with something really special. They add up twice to a fairer co-operation. They are fair to the producing partners of the latex and fair to the environment which is taken care of by the usage of this natural material.

## FAIRMOVES

FAIRMOVE may be the oldest design of a shoe world-wide. This is due to its characteristic construction with the toe-post. They count as a dedication to old wooden sandals which are supposed to be 5,000 years old. Mahatma Gandhi is said to have already worn those pioneers. Thanks to this, it is not a surprise that the expressive flip-flops are becoming quite popular in the constantly growing yoga community.

## WAVES

Right in between the perfect recreation area at the seaside of Sri Lanka and the sophistication of its city's lives – that's where the brand WAVES positions itself.

Those sandal classics, with their colourful design, perfectly match our range. Therefore, we have decided to manufacture them of fairly traded latex. The result is a small collection in various colours which we like to offer to you:

## FAIR ZONE – FAIR PRODUCTS FOR HOUSE AND GARDEN

By the name FAIR ZONE we offer useful products for household and garden, mostly made of natural rubber.

As a sustainable renewable material, natural rubber – which derives from the milk of the rubber tree *Hevea brasiliensis* – can often convince when compared to other materials. That's why we have created a small range which is branded FAIR ZONE. First fair balloons and household gloves, then seed trays. By now we can offer a multitude of sustainable and fairly traded household and gardening products to the group of ethical consumers.

# GARDENING

## PLASTIC-FREE AND BIOLOGICALLY AGREEABLE IN THE GARDEN

Trends like Urban Gardening have increased the home-gardening's popularity during the last years. More than ever plays the self-growing of fruits and vegetables an important role in the lives of ecologically and ethically acting people. A good reason for us, to support the topic of plastic-free in this branch. With our FAIR ZONE products which are a real alternative to plastic-based articles, one may vote for the ban of microplastics in the vegetable-growing area. Decide for a consequent range of products which your customers are seeking. Use seed trays, rubber boots, and gardening gloves from fairly traded natural rubber for your range expansion.

### VEG-ROOT-TRAINER

The Veg-Root-Trainer is meant for home-gardeners who like to cultivate resistant plants with deep and strong roots. This reusable plant system is designed for easy separation of young plants avoiding root balls. 4 modules.

# FUROSHIKI

## FUROSHIKI: A COTTON ALLROUNDER

Derived from Japanese, Furoshiki describes a squared wrapping cloth which is used as an alternative to common packaging materials for presents. It is also used as a wrap for the popular bento box in asian countries, which makes it easier to carry. Here in Europe, those practical cloths has been named “Bündel“ in former times.

### FAIR SQUARED AND FUROSHIKI

Always looking for clever zero-waste products, we came across the story of the cloths. What’s special about the FAIR SQUARED version of it? They are being manufactured by our partner Rice & Carry from sorted out and cleaned Saris in Sri Lanka. For one Furoshiki at least two different ones are used and sewed against each other.

Please keep in mind, that every Furoshiki is unique and that we cannot consider any specific design wishes. The FAIR SQUARED Furoshiki is available in two sizes.

# THE 17 UN SUSTAINABLE DEVELOPMENT GOALS AND OUR COMMITMENT

In September 2015, within the United Nations community, the 2030 Agenda for Sustainable Development was adopted. The involved 193 States have formulated in this context the so-called “goals for sustainable development” (Sustainable Development Goals, SDGs for short). These were considered cornerstones of the development and sustainability policy for the next 15 years.

## Fair Trade, FAIR SQUARED and fulfilment of the SDGs

Did you know that many of the UN goals have long been implemented by the Fair Trade Movement? This is how we have been working since FAIR SQUARED was founded in 2010 on many sustainability goals that have been defined as “global goals”.

### **Goal 1: No poverty**

We pay a fixed minimum price for our Fairtrade commodities plus a premium. This contributes to the long-term improvement of the financial conditions of our partners, so that they can invest in sustainable projects.

### **Goal 2: No hunger**

The price of raw materials we pay our trading partners is being established independently of the world market prices. This ensures that they still get by, even in times of lower world market prices.

### **Goal 5: Gender justice**

We and the actors of fair trade make every effort to achieve the gender-independent equality in the global south. For this reason, for example, womens' labour rights are specifically supported, so that they can work on an equal basis and can thus increase their own future prospects.

### **Goal 6: Clean water and sanitary facilities**

By means of premiums, about their use the workers and self-elected committees decide, well projects have already been realised, that enable access to clean drinking water.

### **Goal 12: Sustainable consumption and production**

Of course, as a manufacturer and trader we are interested in selling our products. However this

must not happen at the expense of the environment. For example, we compensate all our emissions through climate protection projects. Furthermore we are about to change our assortment to completely "plastic-free" and are committed to setting up more sustainable industry solutions.

### **Goal 13: Climate protection measures**

Through our work, we promote the resource-saving cultivation of plant-based raw materials under Fairtrade conditions. In addition to that, we support organic farming and use the chance to make climate-friendly and FSC® certified products attractive for consumers as an alternative to conventional ones.

### **Goal 14: Life under water**

Our responsibility does not only extend to life on land. Much more, especially the marine ecosystem is threatened by our way of living. As a small Ocean Plastic Project, we've found a way, together with our partners in Sri Lanka, to upcycle the PP bottle caps and by this to contribute to the fact that they don't end up in the sea.

### **Goal 15: Life on land**

Only an intact ecosystem can continue to meet the needs of humans and animals in the future. That's why we use FSC® certified raw materials and champion sustainable and fair conditions for the tapping of latex in India, Thailand and Sri Lanka.

# OUR PARTNERS

As one of the first producers for cosmetics worldwide, we are allowed to label our products with the renowned Fairtrade mark due to their conformity to the organisation's guidelines. Furthermore, the FAIR SQUARED cosmetic products are labelled with the NATRUE mark for verified natural cosmetics, and the Vegan Society label. „Fairtrade – Natural – Vegan“ – if that is everything your costumers

want to know. With our hygiene and cosmetic products you can support the fair partnership with producers from the poorer areas of the world.

FAIR SQUARED PRODUCTS CARRY THE LABELS OF THE FOLLOWING LICENSE PARTNERS:

## FAIRTRADE

FAIR SQUARED is primarily a company which implements the objectives of the Fair Trade movement and puts it in the enterprise center. We are one of the first companies worldwide that have been granted the FLO seal for cosmetic products and probably the only ones in this category whose whole product range is exclusively labelled Fairtrade.

### BUT WHAT DOES FAIR TRADE REALLY MEAN?

- No child or compulsory labor
- A guaranteed cost-covering minimum wage for producers
- Fairtrade premiums that are independent from the market price
- Fair working conditions (paychecks, security, working hours...)
- Long-term trade relationships
- Transparent conditions
- The possibility of pre-financing
- Democracy in cooperatives or working committees (shared profit, all votes are of equal worth)

All criteria were controlled by the independent FLOCERT ([www.flocert.net](http://www.flocert.net)) through continuous audits of all license partners (producers and traders). Only the ones who could fulfill the criteria and thereafter continuously work according to them are granted with the well-known Fairtrade mark.

About 90 % of the European population recognizes the Fairtrade label and 95 % of this percentage trust it.

## NATRUE

Founded in 2007, NATRUE is a Brussels based international non-profit association committed to promoting and protecting natural and organic cosmetics worldwide. The NATRUE label is a guarantee for cosmetic products to always be as natural as possible. The products labelled with the NATRUE sign are of high standard and are divided into three different levels depending on how much organic ingredients they contain. The FAIR SQUARED products reach the first stage. We would very much like to achieve a higher level, that is however at the time not possible. Our products are certainly organically produced, but the needed documentations are either because of financial or organizational reasons not possible at the moment.

FAIR SQUARED products are allowed to carry the NATRUE logo because they are always produced as natural as possible. In practice, this means:

- Using natural and organic ingredients
- Gentle manufacturing processes
- Environmentally friendly practices
- Not using synthetic fragrances and / or colours
- Not using ingredients deriving from petro-chemistry
- Not using GMO ingredients
- Not using radiation on the finished product or on the herbal ingredients

## VEGAN SOCIETY

The seal of the international society “The Vegan Society” (with headquarters in Birmingham) is not only to be found on cosmetic products, but also on food, packaging, clothes, cleaning products, and others. The logo guarantees that the product does not contain any animal products. FAIR SQUARED products are certified by the English Vegan Society and meet their standards. Here is an extract from their standards:

- **Animal Ingredients:** The manufacturer and/or producer may not involve or have involved the usage of any animal products or animal by-products in their product or by the manufacturing of their product.
- **Animal Testing:** The development and/or manufacture of the product may not involve or have involved testing of any sort on animals conducted at the initiative of the company or that has been carried out by a party/parties over whom the company has effective control.
- **Genetically Modified Organisms:** The development and/or production of genetically modified organisms (GMO) may not have involved concerning animal genes or animal-derived substances. Products containing GMOs must be labelled as such.

## FAIR RUBBER

Not all raw materials that FAIR SQUARED process are covered by the Fairtrade Labelling Organizations International (FLO). There are simply too many natural raw materials for that. One of these raw materials is natural rubber. It is produced from the sap of the tropical tree “*Hevea brasiliensis*”. The aim of the Fair Rubber Association is “to contribute to an improvement of the working and living conditions of the primary producers of natural latex by applying the principles of Fair Trade to the trade in products made from natural rubber”. That is what their statute says.

But what does it actually mean? Fair Rubber is good for the people. Participation in Fair Trade should be an option, particularly for the primary producers of natural rubber, the rubber tree tappers, and small rubber-farmers.

But the low prices paid for raw materials make it impossible for the tappers, plantation workers, and small-scale farmers to support themselves and their families. This is where Fair Rubber wants to help:

Paying a Fair Trade premium of 0.50 € per kilo of natural rubber to the primary producers ensures that even during periods of depressed world market prices, the costs of production would be covered and the suppliers would have a surplus. Crucially, this would allow them to improve their working and living conditions. The decision of how this premium is to be used remains with the workers: for example by the management board for small-scale farmer associations, or in plantations by a panel consisting of selected employee representatives and delegated management. The FAIR SQUARED products which carry the Fair Rubber association’s label are condoms, Period Cups, and future products made of fairly traded natural rubber.

## HALAL

Halal is translated from Arabic into “allowed” or “approved”. For Muslims it is for example forbidden to consume pork and its by-products as well as blood and intoxicants (alcohol). Muslims can also not eat animals that have not been slaughtered in the proper religiously approved way. People do however not only consume nutrients orally, but also through the skin. For Muslims, it is therefore necessary that cosmetic production is done without these “forbidden” raw materials and that the production sites and machines are uncontaminated. Our production is being audited on a yearly basis. FAIR SQUARED is one of the few suppliers in Europe who produce halal cosmetics.

Das Zeichen für verantwortungsvolle Waldwirtschaft

FSC®

The FSC® (Forest Stewardship Council®) is committed to promoting an eco-friendly, socially responsible and economically viable management of forests which meets the social, economic and ecological needs of present and future generations. The label ensures that only FSC® certified and controlled materials will be used at any time of the production chain.

For the production of FSC® certified products the following materials can be used:

FSC® certified quantities, controlled wood or recycled materials. Depending on the FSC® label, one can see whether the product is made only with material from FSC® certified forests (FSC® 100 %), if it is made with recycled, certified material (FSC® recycled), or if it consists of a mixture of certified and controlled materials (FSC® mix).

Only the products that are identified as such on this document are FSC® certified.

## CLIMATEPARTNER

Everything we do – the production of our products, transport, running offices and administration – causes CO2 emissions. Climate change does not just affect us and future generations, Fair Trade producers, too, already experience significant changes and disadvantages.

That's why we decided to have our emissions analysed by the independent company ClimatePartner ([www.climatepartner.com](http://www.climatepartner.com)), to reduce emissions as far as possible and offset the rest through different climate projects. As early as 2014 we offset the FAIR SQUARED condoms through the afforestation project 'biosphere reservation Schaalsee'.

Our complete assortment's emissions are compensated by a Gold Standard Fairtrade project in Raichur (a rural district in Central India). By the purchase of clean and efficient pressure cookers we offset our emissions. Our production is therefore considered "climate-neutrally".
