

Information for retailers on the FAIR SQUARED reusable system „Zero Waste“

Thank you for choosing our products! FAIR SQUARED natural cosmetics are now available in refillable reusable jars and bottles. These are part of a zero-waste cycle that meets consumer demand for plastic-free cosmetics.

FAIR SQUARED's reusable cycle – this is how it works:

- FAIR SQUARED offers you natural cosmetics in reusable jars that we take back, clean and put back into circulation..
- It's your decision whether to charge deposit to the customers or not.
- You collect the jars your customers bring back. From 12 empty jars onwards, you can send them directly to FAIR SQUARED to the address stated below. Please fill out the "FSQ Return Form" and enclose it with the shipment.
- FAIR SQUARED will reimburse you with a credit note sent by e-mail for the postage at a flat rate of € 2.00 and each glass at a net rate of € 0.30 by transfer to your account.
- For the bulk container "FSQ-Cosmetainer" as well as the "FSQ pump 2500 ml" we will refund € 3.00 net each.
