ZERO WASTE BEAUTY BAR AND MORE

Offer your customers a comprehensive range of certified natural cosmetics in a reusable system.

- Exclusively 100% certified natural cosmetics with Fairtrade certified ingredients and vegan formulations
- Very good price-performance ratio
- NEW: Visually appealing „FAIR SQUARED-Cosmetainer“ bulk containers, with which you can meet the hygienic requirements for unpackaged cosmetics
- Covers most cosmetic applications of your customers
- Product and hygiene trainings as pdf-file for download
- NEW: Webshop with product passes and pictures for download at **store.fairsquared.info**
- Hotline for questions and suggestions
- Attractive supplementary assortment in the B2B webshop, such as cosmetic glass jars, glass bottles, dosing pumps, spatulas, soap dishes or hair ties

OUR COSMETIC ...

- IS FREE OF MINERAL OILS AND SILICONES
- IS MADE WITH FAIRTRADE CERTIFIED INGREDIENTS
- IS CERTIFIED BY THE VEGAN SOCIETY
- IS CERTIFIED BY NATRUE
- HAS 100% PLASTIC-FREE FORMULAS AND JARS
- IS BOTTLED IN REUSABLE GLASS CONTAINERS

FAIR SQUARED GOES **ZERO WASTE**: A PROCESS

Since 2018, our closed-loop system for cosmetic packaging made of glass has already been successfully in operation. This way, our customers and we have already saved several tons of single-use plastic waste and contributed to a better carbon footprint.

FAIR NATURAL COSMETICS IN A RETURNABLE SYSTEM

1. PURCHASE IN RETAIL SHOPS
2. SALE TO SUSTAINABLE ORIENTED CUSTOMERS
3. TAKE THE GLASSES HOME – USAGE OF COSMETICS
4. TAKE BACK THE EMPTY GLASSES
5. SEND THEM BACK TO FAIR SQUARED FOR CLEANING
6. REFILLING OF THE GLASSES... AND THE CIRCLE RESUMES

PRODUCT CARBON FOOTPRINT (GLASS CONTAINERS DISPOSABLE VS. REUSABLE)

We have had the FAIR SQUARED cycle system evaluated by ClimatePartner on the basis of the “Greenhouse Gas Protocol Product Life Cycle Accounting and Reporting Standard” (GHG Protocol). The result shows that glass containers from the FAIR SQUARED reusable cosmetics system produce less than half the greenhouse gas emissions despite interlogistics, than those from a single-use system in which customers dispose of their glass containers in waste glass.

- Glass as long-lasting material
- Reusable glass jar save half of the carbon emissions compared to single-use glass jar. Carbon emissions: kgCO₂ per glass (100 ml) = 0,0505 kg (calculated by ClimatePartner, December 2019)
- Easy to clean and refill
- Returnable system that includes distributors and customers into the Zero Waste process

NEW: PLASTIC-FREE LID SEALS MADE OF NATURAL RUBBER

- Previous EPE inlays are replaced by rubber
- Sustainable, fairly traded material (“Fair Rubber”)
- Free of plastic and hygienic
- Can be reused

FACIAL CLEANSING LOTION GREEN TEA

The particularly gentle cleansing lotion with vitalizing green tea and nourishing olive oil cleanses the skin mildly and thoroughly without drying it out and effectively removes dirt, skin grease, sebum, flakes of skin and make-up.

100 ML BOTTLE, ART.-NO.: 4910244
EAN: 4260365855707

500 ML BOTTLE, ART.-NO.: 4910246
EAN: 4260365855691

MAKE-UP REMOVER

With the FAIR SQUARED make-up remover even waterproof make-up can be removed. At the same time thanks to the Fairtrade apricot kernel oil used it unfolds its nourishing effect and moisturizes.

100 ML BOTTLE, ART.-NO.: 4910291
EAN: 4260365853758

FACIAL SCRUB APRICOT

This facial scrub removes dead skin cells in a particularly pleasant way. The skin is long-lastingly supplied with moisture thanks to the balanced texture of Fairtrade apricot kernel oil and Fairtrade green tea. The result is an extraordinarily skin feeling and a true anti-aging effect.

50 ML JAR, ART.-NO.: 4910248
EAN: 4260365850467

FACIAL SOAP RED WINE – ANTI-AGING

Our Fairtrade red wine from South Africa contains many antioxidant ingredients, including resveratrol, OPC and grape seed oil. These are important ingredients that help keep your skin healthy and young for a long time. Mildly cleanses your face of dirt, make-up and sebum. For normal to combination skin.

160 G, ART.-NO.: 4910180, EAN: 4260365855233

Our soap master Mohamad Khro has come a long way. From Aleppo in Syria he had to flee with his family and leave behind his destroyed soap factory. In Cologne he produces, among other things, his famous Aleppo soaps for FAIR SQUARED and thus continues a long tradition. FAIR SQUARED is grateful to him for his motivation, craftsmanship and creativity. Each and every one of the soaps is personally stirred, poured, cut and embossed by him.

FACIAL SOAP APRICOT SENSITIVE SKIN

Sensitive skin benefits particularly from this soap, which leaves a nourishing film. The Facial Soap Apricot is tailored to the special needs of sensitive, dry skin. The oils used from apricot, shea and olive cleanse particularly gently. Through the addition of chamomile tea the facial soap unfolds an additional skin-soothing nuance. Superfating level: 8,0%

160 G, ART.-NO.: 4910259
EAN: 4260365855561

BLACK SOAP – SUITABLE FOR SKIN TYPES PRONE TO IMPURE SKIN

Includes charcoal for a deep cleansing effect. The plant ash is the special feature of the soap and not only gives the colour, but also reliably removes excess sebum and can reduce skin impurities. The rich Fairtrade oils such as apricot kernel oil, argan oil and coconut oil nourish and subsequently moisturise the skin.

80 G, ART.-NO.: 4910505
EAN: 4260663810668

160 G, ART.-NO.: 4910274
EAN: 4260365853659

FACIAL TONIC GREEN TEA

The mild micellar water with vitalizing green tea clarifies, soothes and refreshes the facial skin. The toning toner restores the pH value of the facial skin, helps the natural protective barrier of the skin and prepares the skin optimally for the absorption of facial care. Ideal also as a toning face mask as preparatory for intensive care.

100 ML BOTTLE, ART.-NO.: 4910245
EAN: 4260365852744

500 ML BOTTLE, ART.-NO.: 4910249
EAN: 4260365852751

COTTON FACE MASK

The world novelty in facial care: reusable cloth masks made of Fairtrade organic cotton. For repeated use. Simply soak the cloth briefly with the face mask of your choice. Then place the mask on the face and let it work in.

1 PC., ART.-NO.: 4910290

SPATULA DUO

The FAIR SQUARED Spatula Duo for hygienic removal of cosmetics from jars. For removing or mixing and stirring cosmetic products. The ideal companion for zero-waste natural cosmetics. Removal with the spatula does not contaminate the high-quality natural product. This ensures the shelf life of the creams.

ART.-NO.: 4910360, EAN: 4260365858531

DAY CREAM ARGAN HYDRO CARE

The FAIR SQUARED Day Cream is the moisturizing and vitalizing facial care for every day. The valuable argan oil protects against dehydration and everyday stresses. The apricot kernel oil and aloe vera sustainably support the moisture balance of the skin. The Day Cream is particularly gentle, absorbs quickly, is not greasy and is suitable for all skin types.

50 ML JAR, ART.-NO.: 4910087
EAN: 4260365851976

NIGHT CREAM ARGAN HYDRO CARE

Nourishing and soothing face care for the night with a combination of precious argan oil and rich shea butter. The cream provides the skin with valuable moisture, nutrients and vitamins overnight. Thus the FAIR SQUARED Night Cream enables a perfect regeneration. Suitable for dry to normal skin types.

50 ML JAR, ART.-NO.: 4910140
EAN: 4260365850580

BEAUTY CREAM ARGAN EXTRA RICH

The FAIR SQUARED Beauty Cream Rich for very dry skin. A rich beauty cream with five different high-quality Fairtrade oils for a radiantly beautiful complexion. The exclusive combination of precious argan, almond, apricot kernel, olive and coconut oil is the purest beauty treatment for the skin. All oils are characterized by their intensively nourishing and moisturizing effect.

50 ML JAR, ART.-NO.: 4910191
EAN: 4260365854748

24 HOURS CREAM ARGAN HYDRO PROTECT

The all-rounder for dry to normal skin. The protective and moisturizing FAIR SQUARED 24 Hours Cream is characterized by a balanced composition of argan, olive and apricot kernel oil. It gives the skin long-lasting moisture without being greasy. Like the valuable argan oil, olive oil also has a high content of vitamin E to protect against harmful free radicals.

50 ML JAR, ART.-NO.: 4910190
EAN: 4260365854731

LIP BALM

The Lip Balms from FAIR SQUARED care for chapped, dry lips and make them supple and soft. The light consistency of the lip care is easy to apply, absorbs quickly and gives the lips a subtle shine. FAIR SQUARED's lip care range contains Fairtrade apricot kernel oil, Fairtrade almond oil, Fairtrade lime extract and Fairtrade shea butter and thus smells particularly discreet and pleasant.

LUBE & MASSAGE GEL GREEN TEA

Natural, water soluble care product, which can be used for body massage as well as a lubricant. The pleasantly gentle formula with fairly traded green tea helps to relieve physical tensions and helps the skin to regenerate. Green tea has been used in Chinese medicine for centuries for its rejuvenating and healing effect. This product is condom compatible and does not change the pH value of the vaginal flora.

MASSAGE OIL OLIVE

Natural massage oil based on fairly traded olive oil. It has very good gliding properties and is almost odorless. Subsequently it can be aromatized with essential oils. It is absorbed very slowly into the skin. Due to the high oleic acid content, the olive oil has a restructuring effect. It is particularly suitable for rough and scaly skin. From the medical science we know that olive oil is warming, anti-inflammatory and stimulates the blood circulation.

EAN: 4260663810972

MASSAGE CANDLE SHEA

Massage candle based on fairly traded coconut oil and fairly traded shea butter. It uniquely combines romantic candlelight with sensual massage in one product. Simply light the wick of the candle and let it burn until the burning plate liquefies. Extinguish the flame, wait a bit and gently massage in the pleasantly warm massage oil. The ingredients used bring ideal gliding properties and provide for pleasantly supple and radiant skin.

50 ML JAR, ART.-NO.: 4910166
EAN: 4260365851877

INTIMATE DEODORANT CREAM APRICOT

Designed for women of all ages who want a fresh skin feeling in the intimate area. The high-yield cream deodorizes and at the same time gently cares for the female intimate area. It is with Fairtrade apricot kernel oil specially adapted to the natural pH value of the intimate area and is suitable for daily use.

50 ML JAR, ART.-NO.: 4910285
EAN: 4260365852072

SHAVING OIL INTIMATE APRICOT

The fair trade and partially certified organic ingredients prevent skin irritation, pimples and razor burn. The oils contained intensively supply the skin with valuable nutrients such as vitamin E immediately after application. In addition, they soothe and smooth the sensitive skin of the female intimate zone.

30 ML BOTTLE, ART.-NO.: 4910329
EAN: 4260365851037

AFTER SHAVE BALM INTIMATE APRICOT

This after shave balm is specially formulated as an after shave treatment for the female intimate area and other sensitive zones. It protects the skin from irritation, soothes and moisturizes it, since the natural oils used are easily absorbed. Maximum moisture without greasiness. Smooths and softens the skin beautifully soft.

30 ML BOTTLE, ART.-NO.: 4910485
EAN: 4260663810019

SHAVING SOAP INTIMATE APRICOT

This shaving soap with a pleasant apricot fragrance combines gentle cleansing of the skin with a skin-friendly wet shave all over the body. Due to the adjusted pH value of 4.5, it is also suitable for intimate shaving. Due to its particularly easy handling, the shaving soap convinces people who want to shave and depilate different parts of the body.

Tampons and pads adé! With the menstrual cups from FAIR SQUARED you get a sustainable product without plastic, silicone, BPA, PVC or phthalates. Our period cups leave no residue in the body and can be used for many years. The cup is pleasantly soft and adapts ideally to the body. It fits well and keeps tight without creating an unpleasant feeling of pressure. Unlike menstrual cups made of silicone or plastic, the Period Cup is a hygienic product made of environmentally friendly material. A unique menstrual product which is 100% natural. It is made of 100% fairly traded and FSC® certified natural rubber from Sri Lanka. Each pack includes detailed product information and a fairly traded fabric hygiene pouch for on-the-go use.

SOLID FACIAL SHAVING SOAP

Thanks to natural ingredients such as coconut oil, olive oil and shea butter, the skin's acid mantle is not destroyed by the Solid Facial Shaving Soap from FAIR SQUARED. With the valuable combination of kaolin, ricinus oil and fair trade coffee extract, the extra care is perfectly rounded off. The soap foams well and is thus ideal for wet shaving.

500 G JAR, ART.-NO.: 4910387, EAN: 4260663810057

SAFETY RAZOR

The Safety Razor with bamboo handle and five blades is offered in a plastic-free packaging. The handle is made of hard and robust bamboo, is water-repellent and durable. Each handle is unique due to the unique and unmistakable grain. The razor is not a disposable razor and may require some practice in the beginning. The blade is sharper than a disposable razor. Therefore, no pressure is needed for a clean shave.

ART.-NO.: 4910560, EAN: 4260365859255

SHAVING OIL ARGAN

The FAIR SQUARED Shaving Oil is the perfect preparation for face or body shaving. With fairly traded, natural and certified organic ingredients. Prevents skin irritation, blemishes and pimples. Our fine oil provides an easy and gentle shaving on the face and other body parts.

30 ML BOTTLE, ART.-NO.: 4910330
EAN: 4260365851181

AFTER SHAVE BALM ARGAN

Soothing and cooling after-shave treatment. Our After Shave Balm protects the skin from irritation and helps to promote a healthy radiant complexion. The natural oils used are easily absorbed by the skin. They provide maximum moisture without being greasy, smooth and soften the skin supple.

30 ML BOTTLE, ART.-NO.: 4910486
EAN: 4260663810026

BEARD SOAP COFFEE

The FAIR SQUARED beard soap was specially developed for daily beard cleaning. With fair trade oils and coffee for a gentle cleaning effect and a long-lasting shine. Superfatness: 3.5%

PRODUCT-FLYER (ONLINE)

For different topics we have prepared information flyers in different languages. As a „Zero Waste“ company, we offer these flyers only digitally in our B2B store or on the Dropbox. If you need flyers for different campaigns, please contact us at marketing@fairsquared.com.

THE 17 UN SUSTAINABLE DEVELOPMENT GOALS AND OUR COMMITMENT

In September 2015, within the United Nations community, the 2030 Agenda for Sustainable Development was adopted. The involved 193 States have formulated in this context the so-called “goals for sustainable development” (Sustainable Development Goals, SDGs for short). These were considered cornerstones of the development and sustainability policy for the next 15 years.

Fair Trade, FAIR SQUARED and fulfilment of the SDGs

Did you know that many of the UN goals have long been implemented by the Fair Trade Movement? This is how we have been working since FAIR SQUARED was founded in 2010 on many sustainability goals that have been defined as “global goals”.

The SDGs of the 2030 agenda

Sustainable cultivation:
Latex tapper in India

GOAL 1: NO POVERTY

We pay a fixed minimum price for our Fairtrade commodities plus a premium. This contributes to the long-term improvement of the financial conditions of our partners, so that they can invest in sustainable projects.

GOAL 2: NO HUNGER

The price of raw materials we pay our trading partners is being established independently of the world market prices. This ensures that they still get by, even in times of lower world market prices.

GOAL 5: GENDER JUSTICE

We and the actors of fair trade make every effort to achieve the gender-independent equality in the global south. For this reason, for example, womens' labour rights are specifically supported, so that they can work on an equal basis and can thus increase their own future prospects.

GOAL 6: CLEAN WATER AND SANITARY FACILITIES

By means of premiums, about their use the workers and self-elected committees decide, well projects have already been realised, that enable access to clean drinking water.

GOAL 12: SUSTAINABLE CONSUMPTION AND PRODUCTION

Of course, as a manufacturer and trader we are interested in selling our products. However this

must not happen at the expense of the environment. For example, we compensate all our emissions through climate protection projects. Furthermore we are about to change our assortment to completely "plastic-free" and are committed to setting up more sustainable industry solutions.

GOAL 13: CLIMATE PROTECTION MEASURES

Through our work, we promote the resource-saving cultivation of plant-based raw materials under Fairtrade conditions. In addition to that, we support organic farming and use the chance to make climate-friendly and FSC® certified products attractive for consumers as an alternative to conventional ones.

GOAL 14: LIFE UNDER WATER

Our responsibility does not only extend to life on land. Much more, especially the marine ecosystem is threatened by our way of living. As a small Ocean Plastic Project, we've found a way, together with our partners in Sri Lanka, to upcycle the PP bottle caps and by this to contribute to the fact that they don't end up in the sea.

GOAL 15: LIFE ON LAND

Only an intact ecosystem can continue to meet the needs of humans and animals in the future. That's why we use FSC® certified raw materials and champion sustainable and fair conditions for the tapping of latex in India, Thailand and Sri Lanka.

OUR PARTNERS

As one of the first producers for cosmetics worldwide, we are allowed to label our products with the renowned Fairtrade mark due to their conformity to the organisation's guidelines. Furthermore, the FAIR SQUARED cosmetic products are labelled with the NATRUE mark for verified natural cosmetics, and the Vegan Society label. „Fairtrade – Natural – Vegan“ – if that is everything your costumers want to know. With our hygiene and cosmetic products you can support the fair partnership with producers from the poorer areas of the world.

FAIR SQUARED PRODUCTS CARRY THE LABELS OF THE FOLLOWING LICENSE PARTNERS:

FAIRTRADE

FAIR SQUARED is primarily a company which implements the objectives of the Fair Trade movement and puts it in the enterprise center. We are one of the first companies worldwide that have been granted the FLO seal for cosmetic products and probably the only ones in this category whose whole product range is exclusively labelled Fairtrade. www.fairtrade.net

BUT WHAT DOES FAIR TRADE REALLY MEAN?

- No child or compulsory labor
- A guaranteed cost-covering minimum wage for producers
- Fairtrade premiums that are independent from the market price
- Fair working conditions (paychecks, security, working hours...)
- Long-term trade relationships
- Transparent conditions
- The possibility of pre-financing
- Democracy in cooperatives or working committees
(shared profit, all votes are of equal worth)

All criteria were controlled by the independent FLOCERT (www.flocert.net) through continuous audits of all license partners (producers and traders). Only the ones who could fulfill the criteria and thereafter continuously work according to them are granted with the well-known Fairtrade mark. About 90 % of the European population recognizes the Fairtrade label and 95 % of this percentage trust it.

NATRUE

Founded in 2007, NATRUE is a Brussels based international non-profit association committed to promoting and protecting natural and organic cosmetics worldwide. The NATRUE label is a guarantee for cosmetic products to always be as natural as possible. The products labelled with the NATRUE sign are of high standard and are divided into three different levels depending on how much organic ingredients they contain. The FAIR SQUARED products reach the first stage. We would very much like to achieve a higher level, that is however at the time not possible. Our products are certainly organically produced, but the needed documentations are either because of financial or organizational reasons not possible at the moment. www.natrue.org

FAIR SQUARED products are allowed to carry the NATRUE logo because they are always produced as natural as possible. In practice, this means:

- Using natural and organic ingredients
- Gentle manufacturing processes
- Environmentally friendly practices
- Not using synthetic fragrances and/ or colours
- Not using ingredients deriving from petro-chemistry
- Not using GMO ingredients
- Not using radiation on the finished product or on the herbal ingredients

VEGAN SOCIETY

The seal of the international society “The Vegan Society” (with headquarters in Birmingham) is not only to be found on cosmetic products, but also on food, packaging, clothes, cleaning products, and others. The logo guarantees that the product does not contain any animal products. FAIR SQUARED products are certified by the English Vegan Society and meet their standards. www.vegansociety.com

Here is an extract from their standards:

- Animal Ingredients: The manufacturer and/or producer may not involve or have involved the usage of any animal products or animal by-products in their product or by the manufacturing of their product.
- Animal Testing: The development and/or manufacture of the product may not involve or have involved testing of any sort on animals conducted at the initiative of the company or that has been carried out by a party/parties over whom the company has effective control.
- Genetically Modified Organisms: The development and/or production of genetically modified organisms (GMO) may not have involved concerning animal genes or animal-derived substances. Products containing GMOs must be labelled as such.

FAIR RUBBER

Not all raw materials that FAIR SQUARED process are covered by the Fairtrade Labelling Organizations International (FLO). There are simply too many natural raw materials for that. One of these raw materials is natural rubber. It is produced from the sap of the tropical tree “*Hevea brasiliensis*”. The aim of the Fair Rubber Association is “to contribute to an improvement of the working and living conditions of the primary producers of natural latex by applying the principles of Fair Trade to the trade in products made from natural rubber”. That is what their statute says. But what does it actually mean? Fair Rubber is good for the people. Participation in Fair Trade should be an option, particularly for the primary producers of natural rubber, the rubber tree tappers, and small rubber-farmers.

But the low prices paid for raw materials make it impossible for the tappers, plantation workers, and small-scale farmers to support themselves and their families. This is where Fair Rubber wants to help:

Paying a Fair Trade premium of 0.50 € per kilo of natural rubber to the primary producers ensures that even during periods of depressed world market prices, the costs of production would be covered and the suppliers would have a surplus. Crucially, this would allow them to improve their working and living conditions. The decision of how this premium is to be used remains with the workers: for example by the management board for small-scale farmer associations, or in plantations by a panel consisting of selected employee representatives and delegated management. The FAIR SQUARED products which carry the Fair Rubber association’s label are condoms, Period Cups, and future products made of fairly traded natural rubber. www.fairrubber.org

LATEST NEWS: The Committee for Standards at WFTO (World Fair Trade Organization) has come to the conclusion that the certification system of FAIR RUBBER e.V. is considered an equivalent Fair Trade system. Therefore they recommend the recognition of FAIR RUBBER e.V by WFTO. The Board of WFTO has not yet made a decision on this matter.

WFTO – WORLD FAIR TRADE ORGANISATION

WFTO is the global community and auditing body for social enterprises that fully practice Fair Trade. WFTO members are represented in 76 countries and all serve marginalized communities. To become a WFTO member, a company or organization must demonstrate that they put people and the planet first in everything they do. WFTO is democratically governed by its members, who are part of a broader community of over 1,000 social enterprises and 1,500 businesses. Fair Squared is a first-time buyer within WFTO. A first-time buyer is a store that buys products from a guaranteed fair trade company. In our case, it is Rice&Carry from Sri Lanka, whose products we mark with our FAIR SQUARED, FAIRMOVE or FAIR ZONE brands. www.wfto.com

FSC® – FOREST STEWARDSHIP COUNCIL

The FSC® (Forest Stewardship Council®) is committed to promoting an eco-friendly, socially responsible and economically viable management of forests which meets the social, economic and ecological needs of present and future generations. The label ensures that only FSC® certified and controlled materials will be used at any time of the production chain. For the production of FSC® certified products the following materials can be used:

FSC® certified quantities, controlled wood or recycled materials. Depending on the FSC® label, one can see whether the product is made only with material from FSC® certified forests (FSC® 100 %), if it is made with recycled, certified material (FSC® recycled), or if it consists of a mixture of certified and controlled materials (FSC® mix). Only the products that are identified as such on this document are FSC® certified.

www.fsc-deutschland.de

CLIMATEPARTNER

Everything we do – the production of our products, transport, running offices and administration – causes CO2 emissions. Climate change does not just affect us and future generations, Fair Trade producers, too, already experience significant changes and disadvantages. That's why we decided to have our emissions analysed by the independent company ClimatePartner (www.climatepartner.com), to reduce emissions as far as possible and offset the rest through different climate projects. As early as 2014 we offset the FAIR SQUARED condoms through the afforestation project 'biosphere reservation Schaalsee'.

Our complete assortment's emissions are compensated by a Gold Standard Fairtrade project in Raichur (a rural district in Central India). By the purchase of clean and efficient pressure cookers we offset our emissions. Our production is therefore considered "climate-neutrally". **www.climatepartner.com**

We for You

TAKE ADVANTAGE OF OUR NEW RETAILER WEBSHOP. THERE YOU WILL FIND:

- detailed product information, product passports and certificates download
- Access to current product images
- Regular special offers
- Graduated prices and simple order processing
- Order history and simple reorder functions

WHAT CAN YOU EXPECT FROM US:

- We ship with DHL climate neutral and plastic-free (Yes, even the adhesive tape is plastic-free) within 24 hours
- Shipping cartons in good condition are used again
- We use discarded display and shipping cartons, shredded, as filling material
- We offer a low minimum order quantity of 150 Euro

FAIR SQUARED is an owner-operated fair trade company.

We carry only fair trade products (Fairtrade, Fair Rubber or WFTO certified) and have other important characteristics:

- Certified natural cosmetics
- Vegan
- Climate neutralized (products and company)
- Products and cardboard packaging from sustainable forestry (FSC® certified)
- Extensive circular economy and zero waste
- Halal

Employee of our Fair Trade Upcycling production
Rice & Carry in Sri Lanka

Dear retailers,

Not only ethically motivated customers are now asking for plastic-free, vegan, organic and/or fair trade alternatives in all areas of life. These topics have arrived in the middle of society and even some legislators are finally demanding fairness from their businesses through “supply chain laws”.

We set out five years ago to find alternatives to conventional household and garden products for a greener and fairer future for people and the environment. By buying FAIR ZONE products, your customers should enjoy making an environmental and social impact. With their purchase, they make an important contribution to climate, environment and resource protection, create sustainable jobs in developing countries, and promote social solutions.

We don't just claim our commitment, however, but have it regularly verified by independent seal initiatives. Thus, our FAIR ZONE products bear a variety of seals, which are intended to give your customers a quick orientation. Whether Fairtrade, WFTO (World Fair Trade Organisation), Fair Rubber, FSC®, Climate Partner or Vegan Society – our seal partners make a valuable, active contribution to our social transformation through their work. We would like to thank them and the many volunteers.

And of course we thank you for your support to include FAIR ZONE in your assortment.

FROM PLANTS FOR PLANTS — THE NATURAL RUBBER PLANT POT

- AVAILABLE IN MANY TREND COLORS
- REUSABLE. SUITABLE FOR INDOORS AND OUTDOORS
- DURABLE FROM FAIRLY TRADED FSC® 100% CERTIFIED NATURAL RUBBER
- NO ABRASION OF MICROPLASTICS

Instead of cheap plastic in the organic garden, we now offer long-lasting flower pots made from fairly traded FSC®-100% certified natural rubber. Due to the flexibility of natural rubber, plants can be easily repotted.

THE ECO PLANT TIE – A FAIR CONNECTION WITHOUT SIDE EFFECT

ECO PLANT & CABLE TIE MAXI

ECO PLANT & CABLE TIE

- FOR FIXING PLANTS AND CABLES EASY TO ATTACH
- REUSABLE
- DURABLE FROM FAIRLY TRADED FSC® 100% CERTIFIED NATURAL RUBBER
- NO ABRASION OF MICROPLASTICS

The versatile plant and cable ties are made of fairly traded natural rubber. Plants can be easily attached to climbing sticks with these ties. They can also be used as cable ties. The practical locking hook ensures that they are just as easy to detach as they are to attach.

- SUPER SOFT TREE BINDER
- DISTANCE BETWEEN SETTINGS 2.5 CM
- TENSIONER MADE OF FAIR TRADED NATURAL RUBBER
- HOLDS TREES OR VEGETABLES UPRIGHT WITHOUT DAMAGING THE PLANT
- ADJUSTABLE

The FAIR ZONE Maxi Eco plant ties are strong enough to provide reliable support for plants, and at the same time are flexible enough to help prevent damage to the plant.

The plant and cable tie made of fair trade natural rubber can be used for different purposes and is adjustable as needed. Through the three holder ungsöptionen with a distance of 2.5 cm are different settings possible. The Maxi Binder has a wide variety of uses, such as in the garden to hold trees or vegetables upright, to fix the garden hose in a coil, to bundle garden tools together.

But also the tidying of cables, the winding of extension cords or the bundling of all kinds of tools is now sustainably possible.

The natural rubber replaces plastic in the garden. It decomposes over time without leaving microplastics. The color used in the rubber is also free of harmful substances.

ECO PLANT & CABLE TIE

- **COMPATIBLE FOR VARIOUS LONG NECK BOTTLES**
- **KEEPS THE SOIL PERMANENTLY MOIST**
- **REUSABLE**

The Self Watering Spikes act as a water dispenser. When the flower soil is dry the water enters the soil through the clay spike, until the soil is sufficiently watered. Clay has the property of storing water and releasing it gradually. Thus, the soil remains permanently moist. The spikes are ideal for watering during the vacations. They are suitable for many different sized long-neck bottles and support healthy plant growth.

DIMENSIONS:

21.5 CM, Ø 5.5 CM

WEIGHT: 223 G / PC.

4 PCS., ART.-NO.: 4800073

WATER DISPENSER (SPIKE)
WATER FOR 1-2 HOURS

INSERT THE WATER DISPENSER
DEEP INTO THE SOIL

PUT A GLASS BOTTLE FILLED
WITH WATER ON THE SPIKE
AND THE WATERING IS DONE.

IN WINTER STORE DRY.
THE PRODUCT IS NOT FROST
RESISTANT.

A GOOD DROP — LONG-TERM WATER DISPENSER FROM CLAY

VERSATILE — **PROTECTIVE MAT** MADE FROM FAIR TRADED COCONUT FIBERS AND NATURAL LATEX

- **BIODEGRADABLE
FAIR TRADE PRODUCT**
- **SUITABLE AS PLANT COLD
PROTECTION**
- **ANTI-SLIP EFFECT ON
ICY SURFACES**
- **PLASTIC FREE AND CO₂
NEUTRAL**
- **SUITABLE AS PET CARPET**

PROTECTIVE MAT

The fairly produced coconut mat is coated with natural latex. The latex also comes from fair trade. It is versatile, plastic-free, CO₂-neutral and biodegradable.

It is ideal for underlaying carpets, as a path runner for icy surfaces or as breathable cold protection for plants. For reptiles in the terrarium it serves as an insensitive, biological pet carpet.

FROM RICE SACK TO LEAF SACK: THE UPCYCLING- GARDEN BAG

- REUSABLE AND EASILY FOLDABLE
- SUITABLE FOR INDOOR AND OUTDOOR USE
- DURABLE FROM RICE BAGS
- EXTREMELY TEAR RESISTANT (UP TO 50 KG)
- MANUFACTURED IN A FAIR TRADE PROJECT BY WOMEN IN SRI LANKA (WFTO CERTIFIED)
- EACH GARDEN BAG IS UNIQUE

The fairly produced garden bag made from upcycled rice sacks is suitable for damp grass, twigs, dry leaves or roots. It is robust and tear-resistant due to the reinforced cross seams. Garden waste can therefore be transported very well. Outdoor toys or garden tools can also be optimally stored in it and remain protected by the moisture-repellent material. Before processing, the rice sacks are carefully cleaned.

CLEAN THING — SOAPS FOR HAND AND DOG

GARDEN APRON

Fashionable bib apron with a pocket on the front for small helpers in the gardening. The buckle for adjusting the neck strap is made of 100% recycled plastic.

70 x 80 CM

ART.-NO.: 4800017

EAN: 4260365859576

DOGGY SOAP COCONUT

The carefully selected oils, such as coconut and cumin oil guarantee gentle cleaning and care. The natural soap has a refatting effect and protects the natural balance of the skin. The cumin oil can have a calming and anti-inflammatory effect and gives the coat a pleasant scent. Dull fur is cared for to the tips thanks to the coconut oil and shines in a natural shine.

In our dog soap was deliberately omitted the addition of fragrances to meet sensitive dog noses.

160 G, ART.-NO.: 4800349

EAN: 4260365853871

GARDENING SOAP

Hand soap for cleaning and care of heavily soiled hands and arms.

160 G, ART.-NO.: 4800254

HERE COMES THE COCONUT – NESTING BOX FOR THE GREEN OASIS

- THE ENTRANCE HOLE (2.8 CM) PROTECTS THE YOUNG BIRDS FROM WIND, RAIN AND PREDATORS
- SPECIES-APPROPRIATE NATURAL PRODUCT FOR THE GARDEN
- ROBUST ROOF PROTECTS FROM WEATHER
- WITH NATURAL CORD TO HANG UP

Handmade nesting box made of coconut for hanging in the garden or on the balcony.

The nesting box serves for breeding and is fairly hand-crafted (WFTO certified) in Sri Lanka. It consists of a single, whole coconut. The shell of the nut is carved to serve as a roof. The suspension consists of a rope made of coconut fibers. The nesting box is therefore 100% natural, sustainable and visually blends well into the garden.

ART.-NO.: 4800247

EAN: 4260663812167

FUROSHIKI — THE COTTON ALLROUNDER

Derived from Japanese, Furoshiki describes a squared wrapping cloth which is used as an alternative to common packaging materials for presents. It is also used as a wrap for the popular bento box in Asian countries, which makes it easier to carry. Here in Europe, those practical cloths have been named “Bündel” in former times.

The special: They are made from worn and cleaned saris in Sri Lanka. For this purpose, at least always two different saris are sewn against each other.

Each cloth is unique with different design in color and pattern. The FAIR ZONE Furoshiki is available in four sizes.

OUR PARTNERS

As one of the first producers for cosmetics worldwide, we are allowed to label our products with the renowned Fairtrade mark due to their conformity to the organisation's guidelines. Furthermore, the FAIR SQUARED cosmetic products are labelled with the NATRUE mark for verified natural cosmetics, and the Vegan Society label. „Fairtrade – Natural – Vegan“ – if that is everything your costumers want to know. With our hygiene and cosmetic products you can support the fair partnership with producers from the poorer areas of the world.

FAIR SQUARED PRODUCTS CARRY THE LABELS OF THE FOLLOWING LICENSE PARTNERS:

FAIRTRADE

FAIR SQUARED is primarily a company which implements the objectives of the Fair Trade movement and puts it in the enterprise center. We are one of the first companies worldwide that have been granted the FLO seal for cosmetic products and probably the only ones in this category whose whole product range is exclusively labelled Fairtrade. www.fairtrade.net

BUT WHAT DOES FAIR TRADE REALLY MEAN?

- No child or compulsory labor
- A guaranteed cost-covering minimum wage for producers
- Fairtrade premiums that are independent from the market price
- Fair working conditions (paychecks, security, working hours...)
- Long-term trade relationships
- Transparent conditions
- The possibility of pre-financing
- Democracy in cooperatives or working committees
(shared profit, all votes are of equal worth)

All criteria were controlled by the independent FLOCERT (www.flocert.net) through continuous audits of all license partners (producers and traders). Only the ones who could fulfill the criteria and thereafter continuously work according to them are granted with the well-known Fairtrade mark. About 90 % of the European population recognizes the Fairtrade label and 95 % of this percentage trust it.

FAIR RUBBER

Not all raw materials that FAIR SQUARED process are covered by the Fairtrade Labelling Organizations International (FLO). There are simply too many natural raw materials for that. One of these raw materials is natural rubber. It is produced from the sap of the tropical tree “*Hevea brasiliensis*”. The aim of the Fair Rubber Association is “to contribute to an improvement of the working and living conditions of the primary producers of natural latex by applying the principles of Fair Trade to the trade in products made from natural rubber”. That is what their statute says. But what does it actually mean? Fair Rubber is good for the people. Participation in Fair Trade should be an option, particularly for the primary producers of natural rubber, the rubber tree tappers, and small rubber-farmers.

But the low prices paid for raw materials make it impossible for the tappers, plantation workers, and small-scale farmers to support themselves and their families. This is where Fair Rubber wants to help:

Paying a Fair Trade premium of 0.50 € per kilo of natural rubber to the primary producers ensures that even during periods of depressed world market prices, the costs of production would be covered and the suppliers would have a surplus. Crucially, this would allow them to improve their working and living conditions. The decision of how this premium is to be used remains with the workers: for example by the management board for small-scale farmer associations, or in plantations by a panel consisting of selected employee representatives and delegated management. The FAIR SQUARED products which carry the Fair Rubber association’s label are condoms, Period Cups, and future products made of fairly traded natural rubber. www.fairrubber.org

LATEST NEWS: The Committee for Standards at WFTO (World Fair Trade Organization) has come to the conclusion that the certification system of FAIR RUBBER e.V. is considered an equivalent Fair Trade system. Therefore they recommend the recognition of FAIR RUBBER e.V by WFTO. The Board of WFTO has not yet made a decision on this matter.

VEGAN SOCIETY

The seal of the international society “The Vegan Society” (with headquarters in Birmingham) is not only to be found on cosmetic products, but also on food, packaging, clothes, cleaning products, and others. The logo guarantees that the product does not contain any animal products. FAIR SQUARED products are certified by the English Vegan Society and meet their standards. www.vegansociety.com

Here is an extract from their standards:

- **Animal Ingredients:** The manufacturer and/or producer may not involve or have involved the usage of any animal products or animal by-products in their product or by the manufacturing of their product.
- **Animal Testing:** The development and/or manufacture of the product may not involve or have involved testing of any sort on animals conducted at the initiative of the company or that has been carried out by a party/parties over whom the company has effective control.
- **Genetically Modified Organisms:** The development and/or production of genetically modified organisms (GMO) may not have involved concerning animal genes or animal-derived substances. Products containing GMOs must be labelled as such.

WFTO – WORLD FAIR TRADE ORGANISATION

WFTO is the global community and auditing body for social enterprises that fully practice Fair Trade. WFTO members are represented in 76 countries and all serve marginalized communities. To become a WFTO member, a company or organization must demonstrate that they put people and the planet first in everything they do. WFTO is democratically governed by its members, who are part of a broader community of over 1,000 social enterprises and 1,500 businesses. Fair Squared is a first-time buyer within WFTO. A first-time buyer is a store that buys products from a guaranteed fair trade company. In our case, it is Rice&Carry from Sri Lanka, whose products we mark with our FAIR SQUARED, FAIRMOVE or FAIR ZONE brands. www.wfto.com

FSC® – FOREST STEWARDSHIP COUNCIL

The FSC® (Forest Stewardship Council®) is committed to promoting an eco-friendly, socially responsible and economically viable management of forests which meets the social, economic and ecological needs of present and future generations. The label ensures that only FSC® certified and controlled materials will be used at any time of the production chain. For the production of FSC® certified products the following materials can be used:

FSC® certified quantities, controlled wood or recycled materials. Depending on the FSC® label, one can see whether the product is made only with material from FSC® certified forests (FSC® 100 %), if it is made with recycled, certified material (FSC® recycled), or if it consists of a mixture of certified and controlled materials (FSC® mix). Only the products that are identified as such on this document are FSC® certified. www.fsc-deutschland.de

CLIMATEPARTNER

Everything we do – the production of our products, transport, running offices and administration – causes CO2 emissions. Climate change does not just affect us and future generations, Fair Trade producers, too, already experience significant changes and disadvantages. That's why we decided to have our emissions analysed by the independent company ClimatePartner (www.climatepartner.com), to reduce emissions as far as possible and offset the rest through different climate projects. As early as 2014 we offset the FAIR SQUARED condoms through the afforestation project 'biosphere reservation Schaalsee'.

Our complete assortment's emissions are compensated by a Gold Standard Fairtrade project in Raichur (a rural district in Central India). By the purchase of clean and efficient pressure cookers we offset our emissions. Our production is therefore considered "climate-neutrally". www.climatepartner.com

THE 17 UN SUSTAINABLE DEVELOPMENT GOALS AND OUR COMMITMENT

In September 2015, within the United Nations community, the 2030 Agenda for Sustainable Development was adopted. The involved 193 States have formulated in this context the so-called “goals for sustainable development” (Sustainable Development Goals, SDGs for short). These were considered cornerstones of the development and sustainability policy for the next 15 years.

Fair Trade, FAIR SQUARED and fulfilment of the SDGs

Did you know that many of the UN goals have long been implemented by the Fair Trade Movement? This is how we have been working since FAIR SQUARED was founded in 2010 on many sustainability goals that have been defined as “global goals”.

The SDGs of the 2030 agenda

Sustainable cultivation:
Latex tapper in India

GOAL 1: NO POVERTY

We pay a fixed minimum price for our Fairtrade commodities plus a premium. This contributes to the long-term improvement of the financial conditions of our partners, so that they can invest in sustainable projects.

GOAL 2: NO HUNGER

The price of raw materials we pay our trading partners is being established independently of the world market prices. This ensures that they still get by, even in times of lower world market prices.

GOAL 5: GENDER JUSTICE

We and the actors of fair trade make every effort to achieve the gender-independent equality in the global south. For this reason, for example, womens' labour rights are specifically supported, so that they can work on an equal basis and can thus increase their own future prospects.

GOAL 6: CLEAN WATER AND SANITARY FACILITIES

By means of premiums, about their use the workers and self-elected committees decide, well projects have already been realised, that enable access to clean drinking water.

GOAL 12: SUSTAINABLE CONSUMPTION AND PRODUCTION

Of course, as a manufacturer and trader we are interested in selling our products. However this

must not happen at the expense of the environment. For example, we compensate all our emissions through climate protection projects. Furthermore we are about to change our assortment to completely "plastic-free" and are committed to setting up more sustainable industry solutions.

GOAL 13: CLIMATE PROTECTION MEASURES

Through our work, we promote the resource-saving cultivation of plant-based raw materials under Fairtrade conditions. In addition to that, we support organic farming and use the chance to make climate-friendly and FSC® certified products attractive for consumers as an alternative to conventional ones.

GOAL 14: LIFE UNDER WATER

Our responsibility does not only extend to life on land. Much more, especially the marine ecosystem is threatened by our way of living. As a small Ocean Plastic Project, we've found a way, together with our partners in Sri Lanka, to upcycle the PP bottle caps and by this to contribute to the fact that they don't end up in the sea.

GOAL 15: LIFE ON LAND

Only an intact ecosystem can continue to meet the needs of humans and animals in the future. That's why we use FSC® certified raw materials and champion sustainable and fair conditions for the tapping of latex in India, Thailand and Sri Lanka.

FAIRMOVE

PRODUCT NOVELTIES

YOGA, SPORTS & FITNESS

Das Zeichen für
verantwortungsvolle
Waldwirtschaft

**GUARANTEED
FAIR TRADE
ORIGIN**

This product has
been sourced from
Rice & Carry,
a WFTO Guaranteed
Fair Trade Enterprise.

Dear retailers,

Not only ethically motivated customers are now asking for plastic-free, vegan, organic and/or fair trade alternatives in all areas of life. These topics have arrived in the middle of society and even some legislators are finally demanding fairness from their businesses through “supply chain laws”.

We set out five years ago to find alternatives to conventional sport and fitness products for a greener and fairer future for people and the environment. By buying FAIRMOVE products, your customers should enjoy making an environmental and social impact. With their purchase, they make an important contribution to climate, environment and resource protection, create sustainable jobs in developing countries, and promote social solutions.

We don't just claim our commitment, however, but have it regularly verified by independent seal initiatives. Thus, our FAIRMOVE products bear a variety of seals, which are intended to give your customers a quick orientation. Whether Fairtrade, WFTO (World Fair Trade Organisation), Fair Rubber, FSC®, Climate Partner or Vegan Society – our seal partners make a valuable, active contribution to our social transformation through their work. We would like to thank them and the many volunteers.

And of course we thank you for your support to include FAIRMOVE in your assortment.

ART.-NO.: 4800165
EAN: 4260365858784

KEY RING

Robust key tag made of recycled materials: the Rice & Carry Key Ring. The buckle is made of collected bottle caps (HDPP), the belt has been manufactured from rice bags.

3 x 18 CM, ART.-NO.: 4800043
EAN: 42603658586193

COSMETICS WITH THE FRESHNESS OF FAIRLY TRADED LIMES

SHOWER GEL LIME

Shower gel for dry or sensitive skin. Olive oil has been used for centuries to gently cleanse and moisturize the skin. Olive oil is rich in natural vitamins, minerals and essential fatty acids that can rejuvenate the skin with its anti-aging properties. Pampers your skin with a fresh scent of lime.

500 ML ZERO WASTE BOTTLE,
ART.-NO.: 4910241
EAN: 4260365855370

DEO CREAM FRESH LIME

Our aluminum-free deodorant cream, with the subtle scent of fresh lime. It does not prevent sweating, but thanks to its formula it ensures that no odor arises.

50 ML ZERO WASTE JAR,
ART.-NO.: 4910342
EAN: 4260365857596

BODY LOTION LIME

This body lotion has a particularly light texture and is therefore absorbed quickly. The result is a silky soft feeling on the skin with a refreshing fragrance of lime. The base is also based on fairly traded olive oil, which is known for its moisturizing properties. Suitable for the normal skin type.

100 ML ZERO WASTE JAR,
ART.-NO.: 4910207
EAN: 4260365850641

LIP BALM LIME

The Lip Balm Lime cares for chapped, dry lips and makes them supple and soft. The light consistency of the lip care is easy to apply, absorbs quickly and gives the lips a subtle shine. Contains Fairtrade apricot kernel oil, Fairtrade almond oil, Fairtrade lime extract and Fairtrade shea butter and thus smells particularly discreet and pleasant.

20 G ZERO WASTE JAR,
ART.-NO.: 4910269
EAN: 4260365857459

- WITH FAIRTRADE CERTIFIED INGREDIENTS
- VEGAN SOCIETY CERTIFIED NATURAL COSMETICS
- NATRUE CERTIFIED NATURAL COSMETICS
- 100% PLASTIC FREE, BOTH CONTENT AND PACKAGING
- IN REUSABLE GLASS CONTAINER

OUR PARTNERS

As one of the first producers for cosmetics worldwide, we are allowed to label our products with the renowned Fairtrade mark due to their conformity to the organisation's guidelines. Furthermore, the FAIR SQUARED cosmetic products are labelled with the NATRUE mark for verified natural cosmetics, and the Vegan Society label. „Fairtrade – Natural – Vegan“ – if that is everything your costumers want to know. With our hygiene and cosmetic products you can support the fair partnership with producers from the poorer areas of the world.

FAIR SQUARED PRODUCTS CARRY THE LABELS OF THE FOLLOWING LICENSE PARTNERS:

FAIRTRADE

FAIR SQUARED is primarily a company which implements the objectives of the Fair Trade movement and puts it in the enterprise center. We are one of the first companies worldwide that have been granted the FLO seal for cosmetic products and probably the only ones in this category whose whole product range is exclusively labelled Fairtrade. www.fairtrade.net

BUT WHAT DOES FAIR TRADE REALLY MEAN?

- No child or compulsory labor
- A guaranteed cost-covering minimum wage for producers
- Fairtrade premiums that are independent from the market price
- Fair working conditions (paychecks, security, working hours...)
- Long-term trade relationships
- Transparent conditions
- The possibility of pre-financing
- Democracy in cooperatives or working committees
(shared profit, all votes are of equal worth)

All criteria were controlled by the independent FLOCERT (www.flocert.net) through continuous audits of all license partners (producers and traders). Only the ones who could fulfill the criteria and thereafter continuously work according to them are granted with the well-known Fairtrade mark. About 90 % of the European population recognizes the Fairtrade label and 95 % of this percentage trust it.

NATRUE

Founded in 2007, NATRUE is a Brussels based international non-profit association committed to promoting and protecting natural and organic cosmetics worldwide. The NATRUE label is a guarantee for cosmetic products to always be as natural as possible. The products labelled with the NATRUE sign are of high standard and are divided into three different levels depending on how much organic ingredients they contain. The FAIR SQUARED products reach the first stage. We would very much like to achieve a higher level, that is however at the time not possible. Our products are certainly organically produced, but the needed documentations are either because of financial or organizational reasons not possible at the moment. www.natrue.org

FAIR SQUARED products are allowed to carry the NATRUE logo because they are always produced as natural as possible. In practice, this means:

- Using natural and organic ingredients
- Gentle manufacturing processes
- Environmentally friendly practices
- Not using synthetic fragrances and/ or colours
- Not using ingredients deriving from petro-chemistry
- Not using GMO ingredients
- Not using radiation on the finished product or on the herbal ingredients

VEGAN SOCIETY

The seal of the international society “The Vegan Society” (with headquarters in Birmingham) is not only to be found on cosmetic products, but also on food, packaging, clothes, cleaning products, and others. The logo guarantees that the product does not contain any animal products. FAIR SQUARED products are certified by the English Vegan Society and meet their standards. www.vegansociety.com

Here is an extract from their standards:

- Animal Ingredients: The manufacturer and/or producer may not involve or have involved the usage of any animal products or animal by-products in their product or by the manufacturing of their product.
- Animal Testing: The development and/or manufacture of the product may not involve or have involved testing of any sort on animals conducted at the initiative of the company or that has been carried out by a party/parties over whom the company has effective control.
- Genetically Modified Organisms: The development and/or production of genetically modified organisms (GMO) may not have involved concerning animal genes or animal-derived substances. Products containing GMOs must be labelled as such.

FAIR RUBBER

Not all raw materials that FAIR SQUARED process are covered by the Fairtrade Labelling Organizations International (FLO). There are simply too many natural raw materials for that. One of these raw materials is natural rubber. It is produced from the sap of the tropical tree “*Hevea brasiliensis*”. The aim of the Fair Rubber Association is “to contribute to an improvement of the working and living conditions of the primary producers of natural latex by applying the principles of Fair Trade to the trade in products made from natural rubber”. That is what their statute says. But what does it actually mean? Fair Rubber is good for the people. Participation in Fair Trade should be an option, particularly for the primary producers of natural rubber, the rubber tree tappers, and small rubber-farmers.

But the low prices paid for raw materials make it impossible for the tappers, plantation workers, and small-scale farmers to support themselves and their families. This is where Fair Rubber wants to help:

Paying a Fair Trade premium of 0.50 € per kilo of natural rubber to the primary producers ensures that even during periods of depressed world market prices, the costs of production would be covered and the suppliers would have a surplus. Crucially, this would allow them to improve their working and living conditions. The decision of how this premium is to be used remains with the workers: for example by the management board for small-scale farmer associations, or in plantations by a panel consisting of selected employee representatives and delegated management. The FAIR SQUARED products which carry the Fair Rubber association’s label are condoms, Period Cups, and future products made of fairly traded natural rubber. www.fairrubber.org

LATEST NEWS: The Committee for Standards at WFTO (World Fair Trade Organization) has come to the conclusion that the certification system of FAIR RUBBER e.V. is considered an equivalent Fair Trade system. Therefore they recommend the recognition of FAIR RUBBER e.V. by WFTO. The Board of WFTO has not yet made a decision on this matter.

WFTO – WORLD FAIR TRADE ORGANISATION

WFTO is the global community and auditing body for social enterprises that fully practice Fair Trade. WFTO members are represented in 76 countries and all serve marginalized communities. To become a WFTO member, a company or organization must demonstrate that they put people and the planet first in everything they do. WFTO is democratically governed by its members, who are part of a broader community of over 1,000 social enterprises and 1,500 businesses. Fair Squared is a first-time buyer within WFTO. A first-time buyer is a store that buys products from a guaranteed fair trade company. In our case, it is Rice&Carry from Sri Lanka, whose products we mark with our FAIR SQUARED, FAIRMOVE or FAIR ZONE brands. www.wfto.com

FSC® – FOREST STEWARDSHIP COUNCIL

The FSC® (Forest Stewardship Council®) is committed to promoting an eco-friendly, socially responsible and economically viable management of forests which meets the social, economic and ecological needs of present and future generations. The label ensures that only FSC® certified and controlled materials will be used at any time of the production chain. For the production of FSC® certified products the following materials can be used:

FSC® certified quantities, controlled wood or recycled materials. Depending on the FSC® label, one can see whether the product is made only with material from FSC® certified forests (FSC® 100 %), if it is made with recycled, certified material (FSC® recycled), or if it consists of a mixture of certified and controlled materials (FSC® mix). Only the products that are identified as such on this document are FSC® certified.

www.fsc-deutschland.de

CLIMATEPARTNER

Everything we do – the production of our products, transport, running offices and administration – causes CO2 emissions. Climate change does not just affect us and future generations, Fair Trade producers, too, already experience significant changes and disadvantages. That's why we decided to have our emissions analysed by the independent company ClimatePartner (www.climatepartner.com), to reduce emissions as far as possible and offset the rest through different climate projects. As early as 2014 we offset the FAIR SQUARED condoms through the afforestation project 'biosphere reservation Schaalsee'.

Our complete assortment's emissions are compensated by a Gold Standard Fairtrade project in Raichur (a rural district in Central India). By the purchase of clean and efficient pressure cookers we offset our emissions. Our production is therefore considered "climate-neutrally". www.climatepartner.com

Das Zeichen für verantwortungsvolle Waldwirtschaft

THE 17 UN SUSTAINABLE DEVELOPMENT GOALS AND OUR COMMITMENT

In September 2015, within the United Nations community, the 2030 Agenda for Sustainable Development was adopted. The involved 193 States have formulated in this context the so-called “goals for sustainable development” (Sustainable Development Goals, SDGs for short). These were considered cornerstones of the development and sustainability policy for the next 15 years.

Fair Trade, FAIR SQUARED and fulfilment of the SDGs

Did you know that many of the UN goals have long been implemented by the Fair Trade Movement? This is how we have been working since FAIR SQUARED was founded in 2010 on many sustainability goals that have been defined as “global goals”.

The SDGs of the 2030 agenda

Source: Global Goals, UN

Access to fresh water:
Fountain project on Sri Lanka

Collecting plastic bottles:
Upcycling project on Sri Lanka

© M. Kunz, Fair Rubber e. V.

Sustainable cultivation:
Latex tapper in India

GOAL 1: NO POVERTY

We pay a fixed minimum price for our Fairtrade commodities plus a premium. This contributes to the long-term improvement of the financial conditions of our partners, so that they can invest in sustainable projects.

GOAL 2: NO HUNGER

The price of raw materials we pay our trading partners is being established independently of the world market prices. This ensures that they still get by, even in times of lower world market prices.

GOAL 5: GENDER JUSTICE

We and the actors of fair trade make every effort to achieve the gender-independent equality in the global south. For this reason, for example, womens' labour rights are specifically supported, so that they can work on an equal basis and can thus increase their own future prospects.

GOAL 6: CLEAN WATER AND SANITARY FACILITIES

By means of premiums, about their use the workers and self-elected committees decide, well projects have already been realised, that enable access to clean drinking water.

GOAL 12: SUSTAINABLE CONSUMPTION AND PRODUCTION

Of course, as a manufacturer and trader we are interested in selling our products. However this

must not happen at the expense of the environment. For example, we compensate all our emissions through climate protection projects. Furthermore we are about to change our assortment to completely "plastic-free" and are committed to setting up more sustainable industry solutions.

GOAL 13: CLIMATE PROTECTION MEASURES

Through our work, we promote the resource-saving cultivation of plant-based raw materials under Fairtrade conditions. In addition to that, we support organic farming and use the chance to make climate-friendly and FSC® certified products attractive for consumers as an alternative to conventional ones.

GOAL 14: LIFE UNDER WATER

Our responsibility does not only extend to life on land. Much more, especially the marine ecosystem is threatened by our way of living. As a small Ocean Plastic Project, we've found a way, together with our partners in Sri Lanka, to upcycle the PP bottle caps and by this to contribute to the fact that they don't end up in the sea.

GOAL 15: LIFE ON LAND

Only an intact ecosystem can continue to meet the needs of humans and animals in the future. That's why we use FSC® certified raw materials and champion sustainable and fair conditions for the tapping of latex in India, Thailand and Sri Lanka.

*always ethical
always sustainable from
plant to product*

**FAIR TRADE UPCYCLING-
PRODUCTS BY
RICE & CARRY FROM
SRI LANKA**

**GUARANTEED
FAIR TRADE**

Rice & Carry was founded by Susi from Austria and Henry from Germany in 2012. It employs over 25 women today. Everything sold under the Rice & Carry label has its origin in waste such as discarded rice sacks or spice sacks.

The idea behind Rice & Carry is to create fair working conditions in the rural East Sri Lanka and at the same time to propagate upcycling and recycling. Since 2018 all buckles on Rice & Carry bags are made entirely of plastic waste. With the Waste Less Arugam Bay project plastic bottles are collected and the buckles are recycled from the lids.

The idea behind Rice & Carry: to give things a new role and to actively counteract the generation of waste.

Incidentally, Rice & Carry has been officially declared fair in 2019: the initiative became a member of the World Fair Trade Organization (WFTO).

**GUARANTEED
FAIR TRADE**

UPCYCLING WITH RICE SACKS

**BOTTLE COOLER**

The Bottle Cooler made of recycled rice bags keeps its promise: the inside stays cool. Perfect for the next picnic in the park.

**HEIGHT: 33 CM,
DIAMETER: 8 CM,
4800011**

**COOLER BAG**

The ultra light cooling bag is the ideal companion for mild summer evenings and extensive picnics outdoors. With two robust handles on both sides.

**WIDTH: 28 CM, HEIGHT: 18 CM,
DEPTH: 18 CM,
4800010**

**PICNIC BLANKET**

A quite unusual picnic blanket – with insulating and moisture-repellent bottom made of rice bags. Welcome, outdoor season! The bottom can be taken off for laundry so that the top of the blanket – a hand-woven cotton fabric – can be washed separately in the washing machine (30 ° C).

**WIDTH: 115 CM,
HEIGHT: 170 CM,
4800167**

**LUNCH BAG S**

Space-saving and fair: the foldable and reusable sandwich bag. With this, lunchtime is twice as joyful.

**LENGTH: 48 CM, WIDTH: 30 CM,
WHEN SPREAD OUT,
4800171**

**LUNCH BAG L**

Bringing your lunch to work? No problem with this Lunch Bag with Velcro fastenings. Cooling the inside with an additional insulation while travelling.

**HEIGHT: 30 CM, WIDTH: 30 CM,
DEPTH: 13 CM,
4800172**

**BREAD BASKET**

Really space-saving and stylish: the bread basket made of recycled rice bags. With a removable cloth at the inside which can be machine washed at 30°C.

HEIGHT: 12 CM, DIAMETER: 18 CM,
4800200

**LAUNDRY BAG**

The laundry bag made from recycled rice sacks is ideally suitable for storing laundry due to its moisture-repellent properties. It can be closed easily with the sewn-on fabric.

HEIGHT: 60 CM, DIAMETER: 40 CM,
4800191

**STORAGE HANGER**

A real space-saver for the bath-room: the storage hanger by Rice & Carry. Separate cells for storing comb, cosmetics, and hair ties.

HEIGHT: 60 CM, WIDTH: 25 CM,
4800199

**DRAWSTRING BAG**

This drawstring bag is small and light as a feather. When needed, it offers a lot of storage space. For example for the next trip to the beach.

**WIDTH: 30 CM, HEIGHT: 43 CM,
4800166**

**SHOPPER**

A strong and eye-catching bag: the small shopper by Rice & Carry, made of recycled rice bags.

**HEIGHT: 25 CM,
DIAMETER: 20 CM,
4800184**

**BEACH BAG**

For all longer tours we recommend the Rice & Carry Shopper L which also cuts a fine figure by the lake. There is an additional zip pocket on the inside.

**HEIGHT: 34 CM, WIDTH: 34 CM,
DEPTH: 16 CM,
4800013**

**BARREL BAG**

A modern sports and leisure bag with two robust handles made of white or black cotton. The zipper contains a nylon string which has been collected on Sri Lanka's coast. An additional zip pocket on the side offers room for keys, telephone etc.

**WIDTH: 45 CM,
DIAMETER: 25 CM,
4800198**

**YOGA MAT BAG**

Absolutely sustainable: The own yoga mat can be easily carried within this Rice & Carry bag. Emission-free, fair and eco-friendly. The cotton shoulder strap is adjustable in length. The buckle consists of 100% recycled plastic.

**LENGTH: 70 CM,
DIAMETER: 16 CM,
4800165**

**COSMETIC BAG**

Enough space for the tooth brush and the favourite cream. The cosmetic bag by Rice & Carry is perfectly storing all needed things for going on a journey.

**WIDTH: 23 CM, HEIGHT: 14 CM,
DEPTH: 6 CM,
4800008**

**UPCYCLE SOAP BAG**

From the Rice & Carry collection, for globetrotters and everyone who does not want to forego their soap bars during travelling: The Upcycle Soap Bag. It is made from collected rice bags and is perfect for storing the foamy soap bar.

**12x12 CM
4910336**

**PENCIL CASE**

Whether at school, university or on a business trip – with this pencil case everything is well stored what needs to be kept handy.

**WIDTH: 21 CM, HEIGHT: 8 CM,
DEPTH: 7 CM,
4800175**

FLAG SET

Lovely set of flags made of shiny colourful rice bags. Weather-resistant and not only in the local garden a real eye-catcher. Available with 10 flags:

**FLAGS: HEIGHT: 24 CM, WIDTH: 19 CM;
LENGTH OF THE CHAIN: 5,5 M
4800190**

**BUM BAG**

Here you can store anything that suits in a common bum bag. The only difference: this bag comes from a fair trade project in Sri Lanka which applies a second chance to discarded rice bags.

**WIDTH: 21 CM, HEIGHT: 13 CM,
DEPTH: 5 CM,
4800168**

**KEY RING**

Robust key tag made of recycled materials: the Rice & Carry Key Ring. The buckle is made of collected bottle caps (HDPP), the belt has been manufactured from rice bags.

**WIDTH: 3 CM, LENGTH: 18 CM,
4800043**

PURSE MINI

HEIGHT: 9 CM, WIDTH: 13 CM,
4800153

STORAGE BAG

4800177

FRENCH FRIES TO GO – FRIES SET

4800204

BEACH TOTE WITH ROPE HANDLES

The bag is made from recycled rice bags and has rope cotton handles. Inside there is a small zipper pocket. Thanks to the material of the recycled rice bags, the bag is repellent to dirt and moisture, making it a perfect beach bag.

34 x 34 x 16 CM, 4800077

MARKET BAG

The market bag was made from discarded rice sacks. Inside there is a small zipper pocket. Thanks to the material of the recycled rice sacks, the bag is very sturdy and resistant to dirt.

38 x 36 x 7 CM, 4800078

RECYCLABLE MATERIAL COLLECTION BAG

The fairly produced recyclable material collection bag made from upcycled rice sacks has four compartments. This makes it easy to separate recyclables such as paper, green, white and brown glass and transport them directly to the recycling container. It has two robust carrying handles and is tear-resistant thanks to reinforced cross seams.

A colorful eye-catcher in every home. Also suitable as a shopping, garden, beach or toy bag.

FAIR RUBBER

Not all raw materials that FAIR SQUARED process are covered by the Fairtrade Labelling Organizations International (FLO). There are simply too many natural raw materials for that. One of these raw materials is natural rubber. It is produced from the sap of the tropical tree “*Hevea brasiliensis*”. The aim of the Fair Rubber Association is “to contribute to an improvement of the working and living conditions of the primary producers of natural latex by applying the principles of Fair Trade to the trade in products made from natural rubber”. That is what their statute says. But what does it actually mean? Fair Rubber is good for the people. Participation in Fair Trade should be an option, particularly for the primary producers of natural rubber, the rubber tree tappers, and small rubber-farmers.

But the low prices paid for raw materials make it impossible for the tappers, plantation workers, and small-scale farmers to support themselves and their families. This is where Fair Rubber wants to help:

Paying a Fair Trade premium of 0.50 € per kilo of natural rubber to the primary producers ensures that even during periods of depressed world market prices, the costs of production would be covered and the suppliers would have a surplus. Crucially, this would allow them to improve their working and living conditions. The decision of how this premium is to be used remains with the workers: for example by the management board for small-scale farmer associations, or in plantations by a panel consisting of selected employee representatives and delegated management. The FAIR SQUARED products which carry the Fair Rubber association’s label are condoms, Period Cups, and future products made of fairly traded natural rubber. www.fairrubber.org

LATEST NEWS: The Committee for Standards at WFTO (World Fair Trade Organization) has come to the conclusion that the certification system of FAIR RUBBER e.V. is considered an equivalent Fair Trade system. Therefore they recommend the recognition of FAIR RUBBER e.V. by WFTO. The Board of WFTO has not yet made a decision on this matter.

FSC® – FOREST STEWARDSHIP COUNCIL

The FSC® (Forest Stewardship Council®) is committed to promoting an eco-friendly, socially responsible and economically viable management of forests which meets the social, economic and ecological needs of present and future generations. The label ensures that only FSC® certified and controlled materials will be used at any time of the production chain. For the production of FSC® certified products the following materials can be used:

FSC® certified quantities, controlled wood or recycled materials. Depending on the FSC® label, one can see whether the product is made only with material from FSC® certified forests (FSC® 100 %), if it is made with recycled, certified material (FSC® recycled), or if it consists of a mixture of certified and controlled materials (FSC® mix). Only the products that are identified as such on this document are FSC® certified. www.fsc-deutschland.de

CLIMATEPARTNER

Everything we do – the production of our products, transport, running offices and administration – causes CO2 emissions. Climate change does not just affect us and future generations, Fair Trade producers, too, already experience significant changes and disadvantages. That’s why we decided to have our emissions analysed by the independent company ClimatePartner (www.climatepartner.com), to reduce emissions as far as possible and offset the rest through different climate projects. As early as 2014 we offset the FAIR SQUARED condoms through the afforestation project ‘biosphere reservation Schaalsee’.

Our complete assortment’s emissions are compensated by a Gold Standard Fairtrade project in Raichur (a rural district in Central India). By the purchase of clean and efficient pressure cookers we offset our emissions. Our production is therefore considered “climate-neutrally”. www.climatepartner.com

THE 17 UN SUSTAINABLE DEVELOPMENT GOALS AND OUR COMMITMENT

In September 2015, within the United Nations community, the 2030 Agenda for Sustainable Development was adopted. The involved 193 States have formulated in this context the so-called “goals for sustainable development” (Sustainable Development Goals, SDGs for short). These were considered cornerstones of the development and sustainability policy for the next 15 years.

Fair Trade, FAIR SQUARED and fulfilment of the SDGs

Did you know that many of the UN goals have long been implemented by the Fair Trade Movement? This is how we have been working since FAIR SQUARED was founded in 2010 on many sustainability goals that have been defined as “global goals”.

The SDGs of the 2030 agenda

GOAL 1: NO POVERTY

We pay a fixed minimum price for our Fairtrade commodities plus a premium. This contributes to the long-term improvement of the financial conditions of our partners, so that they can invest in sustainable projects.

GOAL 2: NO HUNGER

The price of raw materials we pay our trading partners is being established independently of the world market prices. This ensures that they still get by, even in times of lower world market prices.

GOAL 5: GENDER JUSTICE

We and the actors of fair trade make every effort to achieve the gender-independent equality in the global south. For this reason, for example, womens' labour rights are specifically supported, so that they can work on an equal basis and can thus increase their own future prospects.

GOAL 6: CLEAN WATER AND SANITARY FACILITIES

By means of premiums, about their use the workers and self-elected committees decide, well projects have already been realised, that enable access to clean drinking water.

GOAL 12: SUSTAINABLE CONSUMPTION AND PRODUCTION

Of course, as a manufacturer and trader we are interested in selling our products. However this

must not happen at the expense of the environment. For example, we compensate all our emissions through climate protection projects. Furthermore we are about to change our assortment to completely "plastic-free" and are committed to setting up more sustainable industry solutions.

GOAL 13: CLIMATE PROTECTION MEASURES

Through our work, we promote the resource-saving cultivation of plant-based raw materials under Fairtrade conditions. In addition to that, we support organic farming and use the chance to make climate-friendly and FSC® certified products attractive for consumers as an alternative to conventional ones.

GOAL 14: LIFE UNDER WATER

Our responsibility does not only extend to life on land. Much more, especially the marine ecosystem is threatened by our way of living. As a small Ocean Plastic Project, we've found a way, together with our partners in Sri Lanka, to upcycle the PP bottle caps and by this to contribute to the fact that they don't end up in the sea.

GOAL 15: LIFE ON LAND

Only an intact ecosystem can continue to meet the needs of humans and animals in the future. That's why we use FSC® certified raw materials and champion sustainable and fair conditions for the tapping of latex in India, Thailand and Sri Lanka.
