Tampons and pads adé! With the menstrual cups from FAIR SQUARED you get a sustainable product without plastic, silicone, BPA, PVC or phthalates. Our period cups leave no residue in the body and can be used for many years. The cup is pleasantly soft and adapts ideally to the body. It fits well and keeps tight without creating an unpleasant feeling of pressure. Unlike menstrual cups made of silicone or plastic, the Period Cup is a hygienic product made of environmentally friendly material. A unique menstrual product which is 100% natural. It is made of 100% fairly traded and FSC® certified natural rubber from Sri Lanka. Each pack includes detailed product information and a fairly traded fabric hygiene pouch for on-the-go use.

FAIR SQUARED PERIOD CUPS ARE MADE FROM NATURAL RUBBER OBTAINED FROM THE HEVEA BRASILIENSIS TREE. IN SRI LANKA, THE TREES ARE CULTIVATED IN PLANTATIONS, SOME OF WHICH ARE OVER 200 YEARS OLD. THE PLANTATIONS AND THEIR MANAGEMENT ARE AUDITED BY THE FOREST STEWARDSHIP COUNCIL® ANNUALLY. THE PERIOD CUPS THEREFORE BEAR THE FSC® SYMBOL.

MASSAGE OIL OLIVE

Natural massage oil based on fairly traded olive oil. It has very good gliding properties and is almost odorless. Subsequently it can be aromatized with essential oils. It is absorbed very slowly into the skin. Due to the high oleic acid content, the olive oil has a restructuring effect. It is particularly suitable for rough and scaly skin. From the medical science we know that olive oil is warming, anti-inflammatory and stimulates the blood circulation.

MASSAGE CANDLE SHEA

Massage candle based on fairly traded coconut oil and fairly traded shea butter. It uniquely combines romantic candlelight with sensual massage in one product. Simply light the wick of the candle and let it burn until the burning plate liquefies. Extinguish the flame, wait a bit and gently massage in the pleasantly warm massage oil. The ingredients used bring ideal gliding properties and provide for pleasantly supple and radiant skin.

FAIR SQUARED IS A SUPPORTING MEMBER OF THE “VERBAND DER UNVERPACKT LÄDEN E.V.” WITH OVER 400 MEMBERS. FAIR SQUARED CAMPAIGNS FOR MANY YEARS FOR REUSABLE SYSTEMS IN COSMETICS AND NOT ONLY SUPPLIES UNPACKED SHOPS WITH BULK CONTAINERS, WHOSE PACKAGING REMAINS IN THE CYCLE.

On the occasion of the 30th anniversary of Fairtrade in Germany, a series of soaps was developed by our Syrian soap master Mohamad Khirro from Aleppo. The important Fairtrade raw materials, coconut, tea, coffee and shea butter play the main role. They are handcrafted into solid body, face, shaving and hand soaps and offered in Jubilee packs.

HAIR SOAP COCONUT

The basis of the coconut soap is a fairly traded coconut oil. The coconut oil is particularly rich in vitamins, fatty acids and minerals. It has a balancing effect and delays the after-greasing of the hair. Optimal nourishing with a light coconut odour. The coconut hair soap cleanses the hair in a completely natural way.

EAN: 4260663812518

BODY SOAP GREEN TEA

The basis of the green tea body soap is a fairly traded green tea. It is suitable for both normal and sensitive skin and can be used daily. The soap is rich in antioxidants. The skin is clarified, soothed and refreshed by the soap. In addition, green tea is said to have a rejuvenating and healing effect.

EAN: 4260663812631

SHAVING SOAP COFFEE

The shaving soap Coffee provides a safe, comfortable and smooth shave. The product can be used for daily wet shaving as it prevents skin impurities. It provides optimal care for the skin and has a light, pleasant coffee odour.

80 G, ART.-NO.: 4910622
EAN: 4260663812587

HAND SOAP SHEA

The shea butter hand soap soothes and nourishes the hands. In addition, the hands are supplied with sufficient moisture due to the high fat content of shea butter. The hand soap has a high vitamin content and gives the skin high elasticity.

BOTTLE COVER 500 ML

Discover FAIR SQUARED's latest innovation: our bottle covers for 500ml bottles, made from FSC-certified natural rubber. These bottle covers are tailor-made for all FAIR SQUARED 500ml glass bottles, such as shampoo and shower lotion.

Not only do these covers provide environmentally friendly protection for the glass bottles, but also minimise the risk of glass breakage in case of knocks or falls. The special structure of the natural rubber improves the grip and makes the use of products such as shampoo or shower lotion, even more comfortable.

The covers are simply slipped over the bottles. After consumption of the contents, they can be removed and used for the next bottle.

SOAP BOX "RUBYTAINER"

For the clean storage as well as the protected transport of your soap pieces, the Rubytainer is perfect. The soap box is made of fairly traded natural rubber, which is produced in Sri Lanka. With air holes in the lid, the soap can dry ideally and is still ideally packaged. The small size of 8.5 x 7 cm is handy, but at the same time large enough. Especially good for storing our care products, for example our deodorant bars or FAIR SQUARED body lotion.

COSMATICONTAINER

Handy container made of natural rubber – the perfect companion for on the go! With a compact size of approx. 6 cm in height and 5 cm in length and width, it is ideal for customers who are often on the go.

The Cosmaticontainer offers a filling capacity of approx. 50 ml and is absolutely unbreakable at the same time. This way, your customers can safely transport their cosmetic products in their bag or toiletry bag without them leaking. The container comes with an elastic band that can be tightened around the container to prevent leakage even when moving.

With the Cosmaticontainer, your customers can enjoy their favourite cosmetic products on the go – whether travelling or in everyday life.

FAIR SQUARED GOES **ZERO WASTE**: A PROCESS

Since 2018, our closed-loop system for cosmetic packaging made of glass has already been successfully in operation. This way, our customers and we have already saved several tons of single-use plastic waste and contributed to a better carbon footprint.

FAIR NATURAL COSMETICS IN A RETURNABLE SYSTEM

1. PURCHASE IN RETAIL SHOPS
2. SALE TO SUSTAINABLE ORIENTED CUSTOMERS
3. TAKE THE GLASSES HOME – USAGE OF COSMETICS
4. TAKE BACK THE EMPTY GLASSES
5. SEND THEM BACK TO FAIR SQUARED FOR CLEANING
6. REFILLING OF THE GLASSES... AND THE CIRCLE RESUMES

PRODUCT CARBON FOOTPRINT (GLASS CONTAINERS DISPOSABLE VS. REUSABLE)

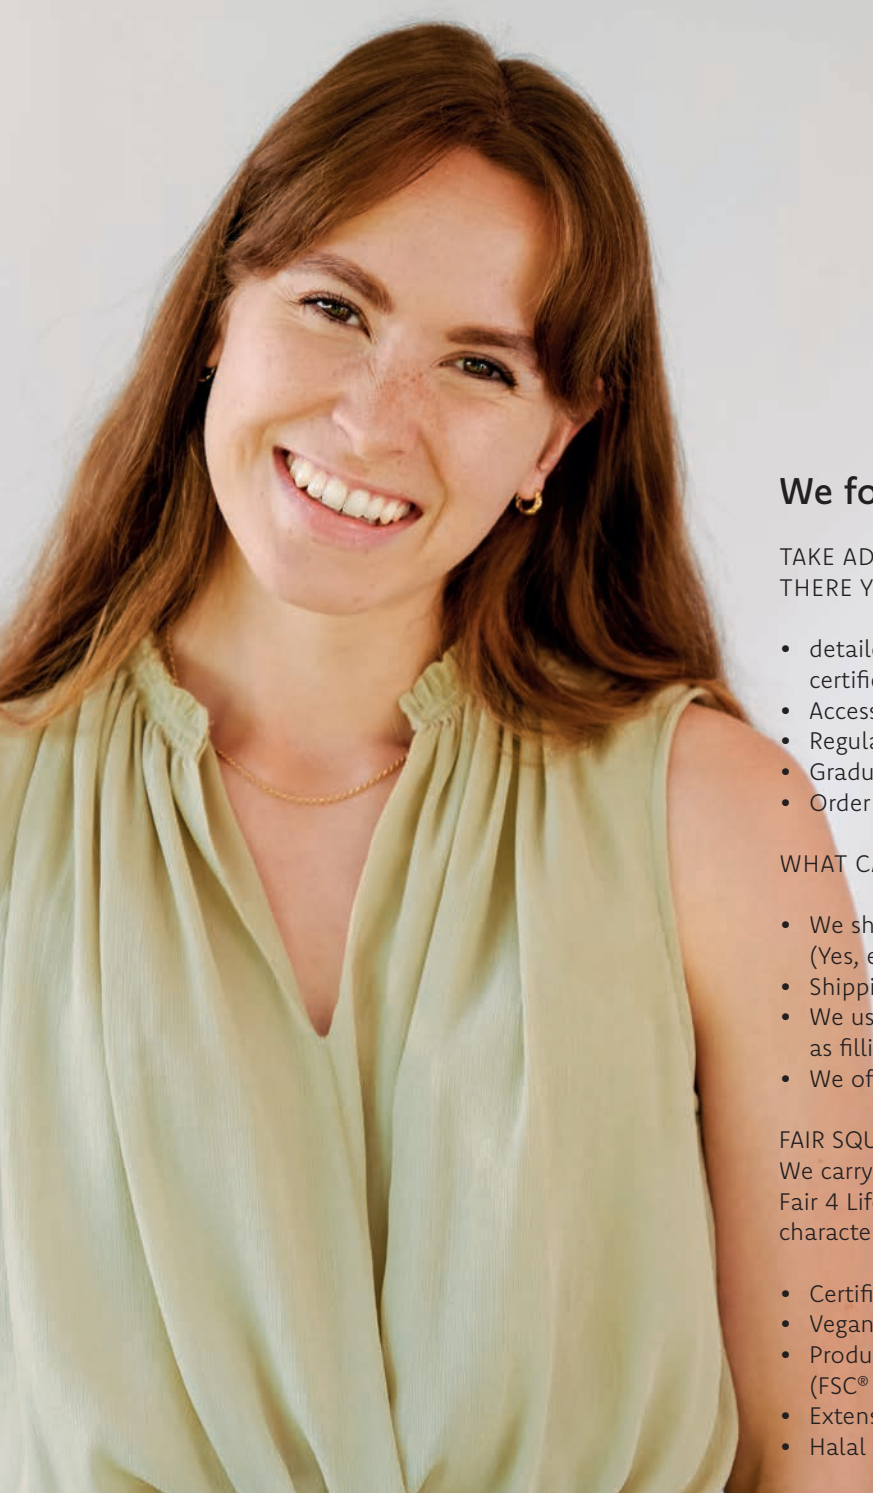

We have had the FAIR SQUARED cycle system evaluated by ClimatePartner on the basis of the “Greenhouse Gas Protocol Product Life Cycle Accounting and Reporting Standard” (GHG Protocol). The result shows that glass containers from the FAIR SQUARED reusable cosmetics system produce less than half the greenhouse gas emissions despite interlogistics, than those from a single-use system in which customers dispose of their glass containers in waste glass.

- Glass as long-lasting material
- Reusable glass jar save half of the carbon emissions compared to single-use glass jar. Carbon emissions: kgCO₂ per glass (100 ml) = 0,0505 kg (calculated by ClimatePartner, December 2019)
- Easy to clean and refill
- Returnable system that includes distributors and customers into the Zero Waste process

NEW: PLASTIC-FREE LID SEALS MADE OF NATURAL RUBBER

- Previous EPE inlays are replaced by rubber
- Sustainable, fairly traded material (“Fair Rubber”)
- Free of plastic and hygienic
- Can be reused
